Introduction

WELCOME

Welcome to Barney Secret of the Rainbow from Nova Development. This is a fun, entertaining, interactive way for your child to learn new skills by playing with Barney and his friends.

This program is recommended for children from 2–4 years old, but older children will enjoy this, too! With this program, young children can learn social and problem-solving skills and improve critical thinking and coordination. They can also learn shapes, colors, numbers, and music.

This program includes animations, video clips from Barney & Friends TV series, and interactive activities at two different levels.

- **Level 1** has less complex verbal instructions and simple activities. This level is appropriate to start with — particularly for younger children.
- **Level 2** has more complex verbal instructions and activities. This level is appropriate for older children, children with advanced verbal and motor skills, and children who have completed Level 1 successfully.

THEME

Barney and his friends are preparing for a music festival in a park. There is a colorful rainbow with colors that transfer to nearby trees during a storm. As the child clicks a tree, he or she has activities to complete, which return that color to the rainbow.

STARTING A GAME

When the program starts the first time, you (or your child) selects a game level.

There are two levels available:

- **Level 1** activities, in general, involve pressing arbitrary keys on the keyboard. Some activities involve moving the mouse.
- **Level 2** activities, in general, involve moving and clicking the mouse and possibly dragging objects.

After you (or your child) clicks a level, the Secret of the Rainbow animation begins and then ends with a scene with colored trees.

By clicking each tree, the child plays activities such as:

- **Red tree:** Clear and set a table.
- **Blue tree:** Make invitations (and posters).
- **Green tree:** Blow up (and capture) balloons.
- **Yellow tree:** Play dress up.
- **Orange tree:** Dance (and play music).
- **Purple tree:** Clean up the park.

The activities in parentheses are in Level 2.

After the child completes the activities for a color, that color is added back into the rainbow and a video clip from the Barney & Friends TV series plays.

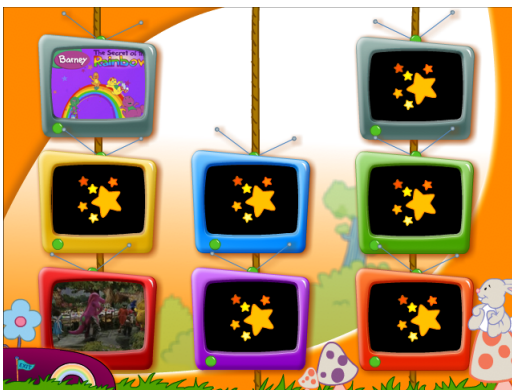

In addition to clicking the colored trees, there are two buttons on the *Colored Trees* screen that appear in the lower-left corner.

- Click the **TV** button to re-view the beginning animation and video clips that have played already during this session.
- Click the **Exit** button to select a different level or to quit the program.

RE-VIEWING VIDEO

If the child clicks the **TV** button on the *Colored Trees* screen, he or she can re-view videos from the Barney & Friends TV series that have played already and view the beginning animation.

When the child completes all activities, all video segments and the ending animation become available for re-viewing.

Each TV is colored for the rainbow color related to that video segment. Click a **TV** icon to re-view an animation or a video segment.

.....

Note: A video segment plays and becomes available *after* the child has completed the activities for that color.

.....

On the *Video* screen there are two buttons in the lower-left corner of the screen.

- Click the **rainbow** to return to the *Colored Trees* screen to start another group of activities.
- Click the **Exit flag** to change to a different level, restart the game at the same level, or to quit the program.

.....

Note: If the child changes to a different level or starts a new game, the *Video* screen is reset. This screen only shows the main animation(s) and the videos that have been viewed in the current session.

.....

CHANGING LEVELS

On any screen with an **Exit flag** icon, the child can change to a different level, restart the game at the current level or quit the program.

- Click **New Game** to view the *Game Level* screen to change the level or to restart the current game.
- Click **Continue** to return to the *Colored Trees* screen for the current game and not reset any completed activities.

Additionally, in the lower-left corner the child can click the **Bye** button to quit the program.

Clicking the screen during an animation forces the animation to end and to the start of an activity.

PRINTING ACTIVITIES

There are certain activities in both levels where a child can print a completed activity.

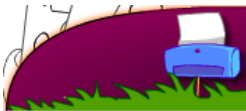

These activities include:

- Printing posters and invitations. (Blue tree)
- Printing posters of Barney and friends in costumes. (Yellow tree)

It is best for an adult or older child to go through the printing process for the young child.

On most screens where something can be printed, a **Printer** icon appears at the bottom-right corner of the

screen. For printing invitations in Level 2, the icon appears in the toolbar on the left side of the screen.

To print the current item:

1. Click the **Printer** icon.
2. With Mac OS X, if a *Page Setup* dialog box appears, adjust settings as needed, and click **OK**.
3. Adjust the settings in the *Print* dialog box as needed.
4. Click **Print**.

DOING LEVEL 2 ACTIVITIES

In Level 1 when a child completes an activity, the program automatically moves to the next activity, but in Level 2 the child can at times click a **Move On** arrow. This icon may appear when the child completes the minimum number of tasks within an activity.

The 'Create Invitations' activity for Level 2 is a little more complex than most other activities. It has a toolbar on the left side:

- Click the **Stamp** icon to add a colorful stamp to the invitations. Select a stamp design from the icons across the top of the screen and then click, as needed, on the invitation.

- Click the **Keyboard** icon and then click a text box to type names. Your child may need help typing.
- Click the **Printer** icon to print the invitation.
- Click the rainbow **Arrow** icon to move on.

QUITTING THE PROGRAM

After going through several activities or completing all activities, a child may want to quit the program.

To quit Secret of the Rainbow:
