## WARNING

### READ BEFORE USING YOUR PLAYSTATION™ GAME CONSOLE

A very small percentage of individuals may experience epileptic seizures when exposed to certain light patterns or flashing lights. Exposure to certain patterns or backgrounds on a television screen or while playing video games, including games played on the PlayStation game console, may induce an epileptic seizure in these individuals. Certain conditions may induce previously undetected epileptic symptoms even in persons who have no history of prior seizures or epilepsy. If you, or anyone in your family, has an epileptic condition, consult your physician prior to playing. If you experience any of the following symptoms while playing a video game—dizziness, altered vision, eye or muscle twitches, loss of awareness, disorientation, any involuntary movement or convulsions—IMMEDIATELY discontinue use and consult your physician before resuming play.

### WARNING TO OWNERS OF PROJECTION TELEVISIONS:

Do not connect your PlayStation game console to a projection TV without first consulting the user manual for your projection TV, unless it is of the LCD type. Otherwise it may permanently damage your TV screen.

### HANDLING YOUR PLAYSTATION™ DISC

- This compact disc is intended for use only with the PlayStation™ game console.
- Do not bend it, crush it or submerge it in liquids.
- Do not leave it in direct sunlight or near a radiator or other source of heat.
- Be sure to take an occasional rest break during extended play.
- Keep this compact disc clean. Always hold the disc by the edges and keep it in its protective case when not in use. Clean the disc with a lint-free, soft, dry cloth, wiping in straight lines from center to outer edge. Never use solvents or abrasive cleaners.

**Note:** You will need a memory card to save your games.

1. Set up your PlayStation™ game console according to the instructions in its Instruction Manual.
2. With the power OFF, open the disc cover and insert the Frogger® disc.
3. Insert a memory card into the memory card slot if you wish to load or save information during play.
4. Close the disc cover before turning the power ON.

**Note:** You will not be able to save your progress if you don't use a memory card. Make sure there is at least one free block on your memory card before beginning your game. You are not able to swap memory cards during play and you must leave the memory card in the memory card slot for the duration of play. You must insert the memory card in the first slot of your Sony Multi Tap if you are using one.

## He's Back!

### REVIVED! REBUILT! & READY TO HOP!

Long ago, Game Over, the ruler of all that is evil in good games, finally squished the last extra life of Frogger®, putting an end to his persistent hopping fun. While Frogger's been gone, hundreds of baby frogs have lost their way trying to take his place in the dangerous Frogger® game world. Now, Frogger® has been brought back - to hop his way through 9 spectacular 3-D worlds. His mission, to rescue over 175 lost baby frogs. Once again, he looks to you, The Player, to help him out. **HOP TO IT!**

6

### STARTING YOUR GAME

#### START

This takes you to the single player, Game Selection screen. Here you can choose a level and start a solo game. (See **SINGLE PLAYER GAME**.)

#### RACE

This takes you to the race mode Game Selection screen. Here you can choose a level and begin a race game. (See **MULTI-PLAYER RACE MODE**.)

#### OPTIONS

From the Options menu, you can:

- View the High Scores;
- Load Frogger® Data (for use only with a memory card);

7

- Save Frogger® Data (for use only with a memory card);
- Change the configuration of the controller to customize the buttons for your own games;
- Adjust music volume;
- Adjust sound effects volume.

## SINGLE PLAYER GAME

Collect five baby frogs in each level to advance through the Frogger® levels, within the time-limit.

## SELECTING A SINGLE PLAYER GAME

- In the Level Select screen you can scroll up and down the level stack by using the UP and DOWN directional buttons.
- There are nine different worlds, or zones, with multiple levels in each. (**NOTE:** Not all of the levels or worlds are available at the start of a new game).
- Levels that are available to play are highlighted in color; locked levels will be in black and white.
- To select a game level, highlight the level and press the **X** button. A graphic and the top three best scores/times for that level will appear. The best time is the shortest time it's taken anyone to complete that level.
- To undo your selection, press the "triangle" button.
- To enter the level, press the **X** button again.

## LEVEL COMPLETE

When you complete a level, the next level in the zone will be opened up and you will be prompted to enter the next level, or select a new level to go into. (This is a great way to build high scores.) If you want to continue from where you left off, the next time you play Frogger®, you must go to the Options screen and "**Save Frogger® Data**" before turning off your PlayStation™. (See **LOADING & SAVING**.)

## SPECIAL LEVEL

Once you unlock the Caves Zone, you will discover a special level called "Frogger Goes Skiing". This is the only level where you can't 'Superhop', the ☐ button will activate your heat seeking tongue, and the ☐ button will activate your power croak. You figure out the rest...

## ZONE COMPLETE

After completing a zone you will be sent back to the Game Selection screen where you can see your progress and choose which level you'd like to enter next. Your total score will continue to accumulate until you lose your last life.

## GAME OVER

If you lose all of your lives at any point in the game, your game is over. You may, however, continue as many times as you like, by just reselecting a level to play from the Game Selection screen.

**REMEMBER:** YOU MUST USE A MEMORY CARD AND SELECT "SAVE FROGGER DATA" FROM THE OPTION SCREEN, IF YOU WANT TO SAVE YOUR PROGRESS AND HIGH SCORES.

## MULTI-PLAYER GAME

Up to four players can simultaneously race different colored baby frogs in five specially designed levels in split screen. If playing with more than two players, be sure that the Multi Tap is inserted. Be sure a controller is always inserted into controller port 1-A and other controllers are plugged into the multi-tap sequentially (e.g., 1-A, 1-B, 1-C & 1-D). If using a memory card and Multi Tap, you must have the card inserted into the memory card port above controller 1-A. If the Multi Tap is being used, all controllers must be plugged into the Multi Tap, and not into the spare controller port in your PlayStation™.

## STARTING A MULTI-PLAYER GAME

- Select race from the START/RACE/OPTIONS screen
- Each player should press the X button on their controller
- 1 player will be prompted to begin the game by pressing START.

## RULES FOR MULTI-PLAYER

- The winner is the first player to collect the best of five flags.
- If there is a tie, there will be a playoff... the first to the flag wins!

- If you are squished, you will be sent back to the beginning of the level.
- Hop onto your opponents to slow them down... this works great in traffic!
- Don't forget your power croak!

## FROGGER® POWER-UPS

Increases the amount of time that you have remaining to complete the level. The amount of time depends on the color of the fly.

**Red** 2 seconds • **Silver** 5 seconds • **Gold** 10 seconds

Gives a score bonus (which will appear on screen) depending on the type of fly you catch.

Catch the butterfly to receive a small score bonus, depending on the type of butterfly. Watch out for the special butterflies, which give other, bigger, bonuses.

Reduces your score by 500 points.

Increases the speed at which the timer counts down.

Gives an extra life up to a maximum number (nine lives).

Holding down the hop button causes Frogger® to travel as fast as possible. This power-up lasts for 10 seconds, during which time Frogger® 'hops' on the spot.

Frogger's tongue grows to twice the size allowing him to grab pick ups which would otherwise be out of his reach. This power-up lasts for 15 seconds. (His tongue color cycles, while this power-up is active.)

Frogger® jumps and hops in half the time which means he can travel twice as fast. This power-up lasts for 8 seconds.

When Frogger® grabs the firefly he is given a special glow which will help him maneuver through dark areas.

## LOADING & SAVING

You must have a memory card inserted in your PlayStation™ prior to saving or loading a game.

The memory card(s) will also save your High Scores and Controller Configurations. You must save your game by selecting "Save Frogger Data" from the Options menu.

## HIGH SCORE TABLES

Go for the highest score by grabbing score bonus power-ups and collecting baby frogs, as quickly as possible. There is a general high scores table that records the top ten Frogger® high scores. There are level high scores as well, that show the best score and time for each of the individual levels.
