

INSTALLING THE PROGRAM

Insert your GT Racers CD into the CD-ROM Drive. Windows should automatically detect the CD and the installation program will begin. Please follow the on screen instructions to complete installation. If Windows does not automatically detect the GT Racers CD please carry out the following steps.

- From the START menu choose RUN
- From the RUN window select BROWSE
- Locate the GT Racers CD and select the file "Set-up.exe" then select OPEN
- From the RUN menu select "OK" and the GT Racers installation will begin
- Follow the on screen instructions to complete the installation

Alternatively you can use Windows Explorer to browse the GT Racers PC-CD ROM contents and double click on the file called "Set-up.exe" to install GT Racers. Follow on screen instructions to install GT Racers.

Esc	Pause Game

All other control keys will be shown in game.

LANGUAGE SELECTION

QUICK RACE

Play this game with a friend or against the computer controlled cars. There are five stunning city race tracks to race in and you can opt to race in a day or night environment. Try to decide which of the wonderfully macho and very fast cars you think will suit you best, give it a name it and chose the livery, decide how may laps you wish to make, give yourself a cool name, THEN *the race is on*.

CHAMPIONSHIP

You are taking part in a World Championship consisting of ten challenging races Before you start decide how many laps you wish your race to have, select your car, give it a name and set it up to your own specification. The challenge, as in all championships, is to get to the top of the drivers table and beat the track record. At the end of each race the Drivers Table will show how you are doing. AND AWAY YOU GO – *Good Luck!*

Car Set Up

Use the arrow keys to move the indicator around inside the triangle. Its position will change the control functions (speed, acceleration and handling) of the car. Too near the number 1 at the top and your car will be all speed but no acceleration, too near the number 2 and you will accelerate off to a good start but everyone else will probably over take you because your speed has been reduced. Near the middle is probably your best bet

Championship Screen

This screen appears at the end of your race and gives you the options of going on to your next race, viewing the drivers' table, saving the game or retiring. You will see the next track and summary information. You will also be given the opportunity of recalibrating the controls for your car. See **Car Set Up**

Once you have won the Bronze Championship these screens will be activated.

Championship Car Livery

Choice of car livery is only available at the Silver and Gold levels.

Championship Levels

There are three levels to this Championship starting with the Bronze, which you must win before being able to enter the Silver and Gold levels of the Championship.
