RIQUANER

THE LEGEND RETURNS

KIDS TO ADULTS

AGES 6+

Dear *SierraOriginals* Customer,

You hold in your hands a part of computer gaming history. All these titles have the original storyline and technological innovations that have helped define and create the PC-Gaming industry as it appears today. Consider these titles as pictures in a scrapbook - a snapshot of history that has helped to evolve the computer gaming industry. All of the *SierraOriginals* titles have been kept in their original form. No attempt to modernize or improve the game was made with these titles in order to maintain the sense of nostalgia.

Some of the CD's may contain a PATCH directory. To determine if your program has a PATCH program, go to your CD-ROM prompt in DOS (i.e., your D:\> assuming your CD-ROM drive is labeled D) and type:

DIR <ENTER>

If the directory listing has a [PATCH] option, then you will need to add these patch files into the game directory after installing the game to your computer. For example, if you installed King's Quest V, and you noticed a directory called [PATCH], you would use the following command to copy the patches into the KQ5 directory:

COPY D:\PATCH*.* C:\SIERRA\KQ5 <ENTER>

NOTE - the above example assumes that your CD-ROM is labeled as your D drive, and you installed the game to your C

hard drive into the directory \SIERRA\KQ5. Please substitute the correct path information in the example above.

Windows '95 users may also have to play the game under DOS, since many of the titles are true DOS games and were created before Windows '95 was released. When using Windows '95, you can re-start your computer in a true DOS mode by clicking on the START button, selecting the SHUT DOWN option, and selecting the "Restart the computer in MS-DOS mode?" item.

Finally, many of these products were released before many of the high quality sound cards such as the AWE 32, Gravis Ultrasound and Ensoniq SoundScape have been released. When selecting an audio/music option for the game, your best bet is to select the AD-LIB option.

On behalf of Sierra On-Line, thank you for purchasing this *SierraOriginals* product. We appreciate the opportunity to share our history with you and your entire family!

Respectfully,

Gary Brown
Corporate Quality Assurance

LODE RUNNER®

THE LEGEND RETURNS

INSTALLATION FOR WINDOWS® 95:

1. Start your computer system so that Windows® 95 has launched.
2. Insert the *Lode Runner*® CD into your CD-ROM drive.
3. Activate the **START** button and select **RUN**.
4. In the **RUN** window, type **D:\SETUP** and click OK. Substitute the appropriate drive letter if needed.
5. Follow the on-screen prompts to complete installation.

INSTALLATION FOR WINDOWS® 3.1:

1. Start Windows® 3.1.
2. Insert the *Lode Runner*® CD into your CD-ROM drive.
3. From the Program Manager **FILE** menu, select **RUN**.
4. In the **RUN** window, type **D:\SETUP** and click OK. Substitute the appropriate drive letter if needed.
5. Follow the on-screen prompts to complete installation.

STARTING LODE RUNNER®:

Double-click or select the *Lode Runner*® icon from the Sierra Program Group or Folder to launch the program.

ACROBAT INSTALLATION FOR MORE GAME DOCUMENTATION:

Follow the on-screen prompts to complete installation.

HOW TO USE A JOYSTICK WITH LODE RUNNER, THE LEGEND RETURNS IN WINDOWS 3.1 & 3.11

Lots of players love to play *Lode Runner, The Legend Returns* using a joystick. Unfortunately, Microsoft® Windows isn't automatically set up for joystick use. So if you want to use a joystick with your game, first you'll have to install a joystick driver (if you haven't already done so). Your best performance will be with a Windows joystick driver provided by your joystick company. Refer to the manuals for Microsoft® Windows and your specific joystick for installation instructions.

Many joystick companies are not currently shipping Windows joystick drivers with their products. For your convenience we have provided a Windows joystick driver that will work with most joysticks. You can enable this driver while you're installing the game. Check the "install joystick driver" box when it

appears on the screen. Then, when the game installation is complete, follow these instructions to enable Windows to use the joystick driver:

- 1) Open the CONTROL PANEL menu located in the MAIN group on your Windows desktop.
- 2) Click on the DRIVERS icon and select ADD.
- 3) Open the ADD menu and select: UNLISTED OR UPDATED DRIVER.
- 4) In the INSTALL DRIVER menu, type the location of your Windows directory.
Example: If your Windows directory is C:\WINDOWS, type the following in the text box: C:\WINDOWS
- 5) When the ADD UNLISTED OR UPDATED DRIVER menu opens, select OK.
- 6) When the GAME ADAPTER SETUP menu opens, choose the JOYSTICK option and select OK.
- 7) In the DRIVERS menu, select CLOSE.
- 8) Exit Windows [ALT - F4] to DOS. Then type WIN [enter] to restart Windows and enable your joystick driver.
- 9) Start LodeRunner. Select joystick from the options menu.

If you choose not to install the joystick drivers during the game

installation process, you can find out how to manually copy these files by clicking on the **LODE RUNNER INFORMATION** icon located in the desktop group where you placed the game.

CALIBRATING YOUR JOYSTICK

To make your joystick perform to its fullest, we recommend that you calibrate it from the Main Menu as soon as you've entered the game. To do this, simply push the joystick all the way into each of the four corners. This will guarantee you the best control over the game as soon as you start playing.

HOW TO USE A JOYSTICK WITH LODE RUNNER, THE LEGEND RETURNS IN WINDOWS 95

Lot of players love to play Lode Runner, The Legend Returns using a joystick. Microsoft® Windows 95 comes with joystick drivers that will allow you to use your joystick in Windows. So if you want to use a joystick with your game you'll have to configure your joystick in the joystick properties screen located in the control panel. Refer to your manuals for Microsoft Windows 95 and your specific joystick for installation instructions. If you continue to have trouble getting your joystick to work in Windows contact the manufacturer of your joystick for assistance.

TO CONFIGURE YOUR JOYSTICK TO WORK IN WINDOWS 95 FOLLOW THESE STEPS:

- 1) Click START, go to SETTINGS and select CONTROL PANEL.
- 2) In the control panel, choose the JOYSTICK Icon.
- 3) In the joystick properties screen under joystick selection, make sure the joystick or game pad you have selected matches the joystick you have (if you are not sure, reference the manual that came with your joystick or contact the joysticks manufacturer). Next choose Calibrate and Follow the on screen instructions.

TO USE THE JOYSTICK IN THE GAME:

- 1) Start Lode Runner by clicking on the Lode Runner icon in the Sierra program group.
- 2) From the main menu screen click the check mark (✓) on the right hand side of the main menu. On the left hand top, there will be three choices; Joystick, keyboard and mouse. Click on the joystick and then click on the triangle in the lower right corner.

If you are having trouble setting up your joystick, or it will not work in Windows 95, refer to the joystick documentation or contact the joystick manufacturer for assistance.
