Epilepsy Warning

A very small percentage of individuals may experience epileptic seizures when exposed to certain light patterns or flashing lights. Exposure to certain patterns or backgrounds on monitors or television screens or while playing games on a computer may induce an epileptic seizure in these individuals. Certain conditions may induce undetected epileptic symptoms even in persons who have no history of prior seizures or epilepsy. If you, or anyone in your family, has an epileptic condition, consult your physician prior to playing. If you experience any of the following symptoms while playing a CD-ROM game---dizziness, altered vision, eye or muscle twitches, loss of awareness, disorientation, any involuntary movement or convulsions---IMMEDIATELY discontinue use and consult your physician before resuming play.

ESRB Rating

This product has been rated by the Entertainment Software Rating Board. For information about the ESRB rating, or to comment about the appropriateness of the rating, please contact the ESRB at 1-800-771-3772.

This Is Not A Game

Riding a motorcycle towards a stone wall at 200 kilometers per hour is insane, is it not?

Racing a motorcycle on public roads is a hazardous pursuit, would you agree?

Any race that did indeed involve such speeds on country roads would soon be outlawed in the name of all that's decent and sensible, right?

Wrong. The Isle of Man has been host to such races for 90 years, and every year thousands of fans head out to the island to witness the thrills - and occasional spills - of Manx Tourist Trophy motorcycle magic. Fearless competitors from every corner of the Earth blaze through the usually peaceful countryside like screaming Viking warriors from the past. To win is to demonstrate perfection.

Now you have the opportunity to experience the Manx TT races firsthand on some of the world's fastest motorcycles, against the world's most skillful riders.

Are you up to the challenge, or were you born to spectate?

Be sure to make the right choice: **this is not a game...**

SYSTEM REQUIREMENTS

Operating system:	Windows® 95
CD-ROM:	2x (4x recommended)
Minimum CPU Type:	Pentium® class processor, 90 MHz
Memory:	16MB
Graphics:	SVGA, supports 16 bit high color (256 colors required)
Sound Card:	Sound Blaster 16 or compatible
Other:	Keyboard, Windows® 95 Compatible Joystick or Gamepad

STARTING UP

MANX TT SUPERBIKE runs under Windows® 95 only.

To Play MANX TT SUPERBIKE under Windows® 95, follow these steps:

1. Place the MANX TT SUPERBIKE CD in the CD-ROM drive, label side up. Close the tray.
2. After a few moments, a dialog box will appear, giving you a choice of options.

Choose whether to install Native (Direct X Version) or 3Dfx (Glide Version) of Manx TT Superbike or both versions. Click on the box of the version(s) you'd like to install. Then click "Next". Manx TT will Create special shortcuts in the Start Menu for each version you install. After Manx TT Superbike has already been installed, you can insert the CD and choose from Run Native Version, Run 3Dfx version, Uninstall, or Exit to Windows. Manx TT Superbike uses Direct X5.

Under Windows 95, the MANX TT SUPERBIKE installation procedure analyzes your specific system configuration and loads the appropriate drivers for your sound card and video display card. In addition, MANX TT SUPERBIKE will create a new program group called MANX TT SUPERBIKE Group and places the MANX TT SUPERBIKE shortcut in that group.

WELCOME SCREEN

Here you elect to Play, (Re) Install, Uninstall and/or Exit the MANX TT SUPERBIKE program.

Once MANX TT SUPERBIKE is installed, whenever you insert the CD-ROM in the drive, you will be given the option to Play, (Re) Install, Uninstall or Cancel. Click Install to Reinstall MANX TT SUPERBIKE. Click Uninstall if you wish to remove MANX TT SUPERBIKE from your system, or CANCEL to take no action. See "Using Menus," below for more information on starting or resuming games.

1. Configuration: Minimum Installation, 16 Megabytes.
2. Get Destination Path: Choosing Directory-Where you want to install game.
3. Direct X: MANX TT SUPERBIKE uses Microsoft Direct X. Direct X has been known to overwrite certain video and sound drivers improperly. If you already have Direct X5 installed, choose, "Do not install Direct X." If you do not have Direct X5 installed, choose "Install Direct X." If you experience any video or sound problems with MANX TT SUPERBIKE, go to the Trouble Shooting

section of this manual on page 15.

After the game is installed it will create a new group in the start menu called Sega and a short cut for MANX TT SUPERBIKE in the Sega program group.

HOT KEYS

Escape: Pause the game at any time during a race.

Exit (Alt + F4): Exit the game at any time.

Shrink Screen (Shift + “ - “): Shrink screen size (Go to a lower resolution).

Expand Screen (Shift + “ + “): Expand screen size(Go to a higher resolution).

TAKE CONTROL

To accelerate your SUPERBIKE: Number Pad 0 or Button 1

To apply brakes to your SUPERBIKE: Number Pad 1 or Button 2

To turn your SUPERBIKE RIGHT: RIGHT Arrow or Right on the D-PAD

To turn your SUPERBIKE LEFT: LEFT Arrow or Left on the D-PAD

To start your SUPERBIKE: Use ENTER Key, Button 4 or the Start Button

OPTIONS

Sound:

Use this option to adjust the background volume and sound effects volume to your desired level.

Graphics:

Sky Texture: Turn ON or OFF the background sky.

Perspective Correction: Turn ON or OFF perspective correction on the track and background.

Background Distance: Control how far off the background is projected during the race.

Controllers:

Set the input device to Keyboard, Joystick, or Keyboard and Joystick and set the key/button controls. You can also choose different default key settings by choosing TYPE A, TYPE B, TYPE C or TYPE D key settings.

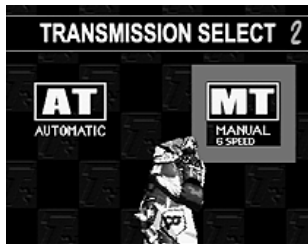

GAME MODES

Arcade Mode

On the Course Select screen, choose a race course. Press the arrow keys LEFT or RIGHT to toggle between the LAXEY COAST (3 laps;easy) and TT COURSE (2 laps;difficult). Press the ENTER Key or Button 1 to select the course, or wait for the countdown to reach zero (at which point the currently highlighted course is automatically selected). Next up is the

Transmission Select screen. Press the arrow keys LEFT or RIGHT to highlight AT (Automatic) or MT (Manual, 6 Speed) transmission. Press the ENTER Key or Button 1 to select, or wait for the countdown to reach zero (at which point the currently highlighted transmission type is automatically selected). Now you're ready to race - hold on tight!

PC Mode

Here, you can choose to PRACTICE on any of the four available courses to take the MANX TT SUPERBIKE CHALLENGE. Truly talented racers who survive the CHALLENGE are permitted entry to the SUPERBIKE race mode.

In the PC Mode select screen, press the arrow keys LEFT or RIGHT to highlight race specifications and press the ENTER Key or Button 1 to select.

Practice Race

This mode allows you to hone your riding skills in preparation for taking the MANX TT SUPERBIKE Challenge. Before the race, select one of four race courses. LAXEY COAST, TT COURSE, LAXEY COAST RM (Reverse Mirrored*) or TT COURSE RM (Reverse Mirrored*). Highlight a course with the arrow keys and press the ENTER Key or Button 1 to select.

Next, the lap number options (3, 5 and 7) appear in boxes on the right side of the screen. Press the arrow keys UP or DOWN to highlight a number, and select by pressing the ENTER Key or Button 1. Now select a bike and transmission type from the Bike Select screen and prepare yourself for a high-speed ride in the country.

Challenge Race

In order to meet the MANX TT SUPERBIKE Challenge, you must race your way through all four Manx TT race courses: the LAXEY COAST, TT COURSE, LAXEY COAST RM and the TT COURSE RM, respectively. On the first three courses, you must finish amongst the top three racers in order to progress to the next race. On the final course (TT COURSE RM), you must win in order to complete the Challenge stage. If you succeed, you join the ranks of the elite and are permitted entry to the SUPERBIKE stage.

For the Challenge race, you must first select a bike and transmission type from the Bike Select screen. The number of laps is set at three per course.

The SUPERBIKE Race

Having successfully completed all four Challenge courses, you have the opportunity to attain true enlightenment in the SUPERBIKE race stage. The rules are the same as for the Challenge stage, but in addition to the standard choice of eight motorcycles, there are three more mechanics' heartbreakers: SUPERBIKES whose incredible performances seem to defy the laws of physics. But you won't be able to get your hands on one until you've proven your worth...

Don't think for a minute that a faster bike is all you get in this stage. You also get to race against the very top SUPERBIKE racers - faster and more skillful than any you've faced before. There's no mercy here.

Select a bike and transmission type from the Bike Select screen before strapping on your helmet and saying your prayers.

**RM (Reverse Mirrored) courses are mirror images of the original course; bikes race in the opposite direction.*

TIME TRIAL MODE

Here, you are given the opportunity to perfect your riding skills in a race against the clock. With the GHOST RIDER function selected, you can even compete against yourself!

First, select a course. Choose from LAXEY COAST, TT COURSE, LAXEY COAST RM or TT COURSE RM by pressing the arrow keys UP or DOWN to highlight a course and press the ENTER Key or Button 1 to select. Next, specify the number of laps. Choose 3 laps, 5 laps or FREE RUN* (no limit) by pressing the arrow keys to highlight and the ENTER Key or Button 1 to select.

Highlight the GHOST RIDER option by pressing the arrow key UP or DOWN, and select by pressing the ENTER Key or Button 1. Now select a motorcycle and transmission type from the Bike Select screen and you're off to a running start in a race against the clock.

"To retire from a "FREE RUN" TIME TRIAL, press (esc) to pause the game, then select "Exit" from the PAUSED menu. The NAME ENTRY screen does not appear in FREE RUN mode.

GHOST RIDER FUNCTION

Ghost Rider

Player

Once you have specified the number of laps on the TIME TRIAL course, the GHOST RIDER option menu appears. When activated, this feature projects an image of the previous "BEST" TIME TRIAL bike onto the track for you to race against. There are three options:

- OFF:** Deactivates the GHOST RIDER function. The GHOST RIDER does not appear.
- LAST:** Projects an image of your bike, racing the lap you just completed.
- BEST:** Projects an image of the bike which set the fastest time on the current course.

LINK GAME FOR MULTI-PLAYER RACES

You can have a race with up to 8 players via IPX, LAN, TCP/IP, or 2 races via Modem, or Serial Link.

Choose the Link Game option from the main menu.

IPX: Link up with a friend over a local network.

TCP/IP: Race anyone over the internet or on local area network. Enter the IP address of the session host you wish to challenge or to see a listing of anyone looking for a race. Run "winipcfg" to get your IP address. (Note: You must have the TCP/IP protocol installed for Windows 95 (under Network Properties) to have winipcfg installed.)

Serial Link: Race head-to-head over Cable link between two communication ports.

Modem: Race against a friend over the phone lines. We recommend at least a 14.4K Baud Modem for modem play.

HIT THE ROAD!

Your goals as a TT racer are (A) remain in one piece and (B) win the race!

At certain positions on each course are CHECK POINTS. You must reach each CHECK POINT before your time limit runs out. If you manage this, "TIME EXTENDED" appears on the screen and you are awarded a time extension. If you run out of time before a CHECK POINT, your "TIME IS UP" and you must retire from the race.

Pause: Press Escape during a race to pause the game. Once PAUSED, a list of options appears.

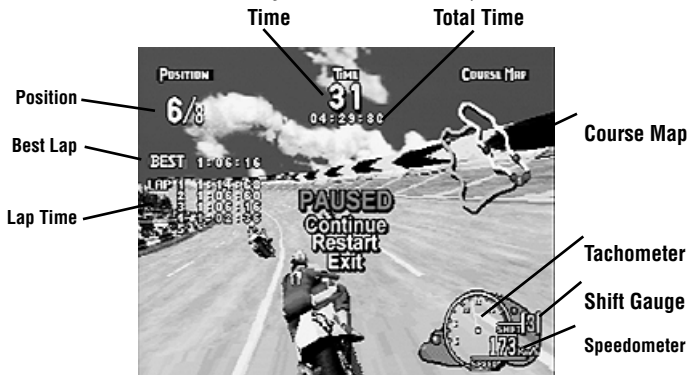

Press the arrow keys UP or DOWN to highlight a choice, and the ENTER Key to select.

- Choose "Continue" to carry on racing.
- Choose "Restart" to begin the current race again.
- Choose "Exit" to retire from the race.

RACING READ-OUT

While racing, you are able to constantly monitor essential race information.

The following on-screen information is provided:

Position: your current position in the race

Best Lap: your fastest lap time in the current race

Lap Time: your time for each lap of the current race

Time: the time remaining within which you must reach the next CHECK POINT

Total Time: the total race time so far

Course Map: the highlighted area represents the course you are currently on. The map features colored block representations of the other racers. Player 1 and Player 2 are represented by blocks labeled "1" and "2".

Tachometer: shows current engine RPM

Speedometer: shows the current speed

Shift Gauge: shows the current gear

BIKE SELECT SCREEN

It's time to select the machine to which you must trust your life.

For the racing students, the art of engineering is represented by eight savage beauties that need to be tamed. Those, however, who have previously managed to complete all four CHALLENGE race courses and reach the SUPERBIKE stage (see page 8) can also choose one of three SUPERBIKES.

Press the arrow keys LEFT or RIGHT to view the motorcycles and their performance characteristics (TOP SPEED, ACCELERATION and HANDLING). Press the ENTER Key or Button 1 to select a bike. Next, select AT (Automatic) or MT (Manual) transmission by pressing the arrow keys to toggle and the ENTER Key or Button 1 to select.

NAME ENTRY

If you complete a race course in one of the five fastest times, you can enter your initials and boast to your friends.

Press the arrow keys LEFT or RIGHT to highlight a character, and the ENTER Key or Button 1 to select. Selecting the back-arrow or pressing Button 2 erases the last character. Once you've finished, select END or wait for the countdown to reach zero.

RECORDS MODE

This mode allows you to review previous best performances for each of the game modes.

Rank	Name	Race Time	Best Lap	Bike
1	ASD	4:47.64	1:29.20	YZF
2	ASD	4:51.12	1:30.29	YZF
3	ASD	4:55.12	1:30.76	YZF
4	ASD	5:02.88	1:31.44	YZF
5	ASE	5:06.40	1:33.36	YZF

The data is in the form of a table which ranks the five fastest course times, the riders' names, the best lap times and the type of motorcycles used. Press the arrow keys UP or DOWN to highlight a menu item, and press the ENTER key to select the item.

First, select the game mode (ARCADE, PC MODE, TIME TRIAL or LINK MODE). Next, select the race course (LAXEY COAST, TT COURSE, LAXEY COAST RM or TT COURSE RM). Finally, select the number of laps.

HISTORY OF THE ISLE OF MAN

Not Even A Cross Cern Could Protect You From A Blood Eagle.

It was a particularly unpleasant ritual of our Norse ancestors.

You dragged the king whose army you had just defeated on to a broad stone, slashed open his chest and wrenched out his rib cage. While he was still alive, of course.

It was the highest honor you could pay Odin, the great Norse god who had granted you your victory. The living sacrifice of an anointed Christian King.

Not even a Cross Cern - a sacred cross made from branches of the Rowan tree, believed to ward off the evil eye - could avail you if your Norse captors decided your chance for immortality had come.

The story of the Norse men of the Isle of Man is graphically told in the Manx Museum. Here you'll also learn what makes the Isle of Man such a unique island.

Its independent traditions are woven into the stonework of the great natural fortress of Peel Castle which is on St. Patrick's Isle or Castle Rushen at Castletown, (once the Island's capital).

They echo down the deserted galleries of the Laxey Mine where for centuries islanders laboured by candlelight to hack precious iron ore from the living rock.

It's there in the soil in the haunted burial grounds of the Viking marauders.

The spirit of Mann is very much alive today - that spirit of battling the elements and self reliance. You'll find it in modern sporting events like the 90 year old TT race around the 38 mile Mountain Circuit, the Classic Car races, the TT motorcycle races, the Manx Grand Prix and the Manx International Rally.

Many of the sporting world's toughest competitors struggle for supremacy along the five hundred miles of winding coast and mountain roads that ring the island.

Get to grips with a turbulent past, and the exciting present, on the Isle of Man. It's closer than you think.

***Call the UK on 00 44 345 636 363 for your free holiday guide.
But remember, if you pick a quarrel with a Viking, just make sure you win.***

TROUBLESHOOTING

Question #1:

Does MANX TT SUPERBIKE require an MMX processor or will it work on a Pentium class processor?

Answer:

MANX TT SUPERBIKE will work with either an MMX processor in your computer or a native Pentium class processor without MMX technology. Manx TT also works on Cyrix and AMD brand processors.

Question #2:

After installing the game, I am experiencing video problems. What could have caused this and how can I fix it?

Answer:

What most likely happened is Microsoft's Direct X overwrote your video drivers. Since MANX TT SUPERBIKE uses Direct X5, your previous drivers are backed up when it installs new drivers. One way you can restore the drivers is to:

- 1) Double Click on the "My Computer" icon.
- 2) Double Click on the "Control Panel" icon.
- 3) Double Click on the "Add/Remove Programs" icon.

4) Choose Direct X Drivers and then hit the Add/Remove Programs Button.

5) Click on the "Restore Display Drivers" button. If this does not fix your video issue, you should download the latest Direct X compatible video drivers from your video card manufacturer's web site.

Here is a list of certain video cards which require special Direct X drivers to be downloaded from your video card manufacturer's web site:

1. Some ATI brand video cards (www.atitech.com)
2. Chips and Technologies (www.chips.com)
3. Diamond Multimedia (www.diamondmm.com)
4. Matrox (www.matrox.com)
5. Number 9 (www.nine.com)
6. Simply the Best (www.stb.com)
7. Tseng Labs (www.tseng.com)

If you have trouble finding Direct X drivers, you can also get drivers at www.drivershq.com or www.winfiles.com.

Question #3:

I get sound effects, but no music during gameplay. How do I fix this?

Answer:

The music in MANX TT SUPERBIKE is CD Audio. You should try to play tracks 2 or higher on the MANX TT SUPERBIKE CD-ROM to see if your CD audio is properly set up. If you cannot hear the CD Audio under the Windows 95 CD Player (Start Button → Programs → Accessories → Multimedia → CD Player), you need to:

- 1) Make sure that the CD Audio volume is not muted (under Windows 95 Volume Control)
- 2) Make sure that your CD-ROM drive is connected to your Sound Card.

Question #4:

During gameplay, I get CD Audio, but no Sound Effects. How do I fix this?

Answer:

- 1) Make sure that the Sound Effects volume is not muted (under Windows 95 Volume Control)
- 2) Direct X could have overwritten your Sound Drivers. Since MANX TT SUPERBIKE uses Direct X5, your previous drivers are

backed up when it installs new drivers. One way you can restore the drivers is to:

- 1) Double Click on the “My Computer” icon.
- 2) Double Click on the “Control Panel” icon.
- 3) Double Click on the “Add/Remove Programs” icon.
- 4) Choose Direct X and then hit the Add/Remove Programs Button.
- 5) Click on the “Restore Audio Drivers” button.

If this does not fix your sound issue, you should download the latest Direct X compatible sound drivers from your sound card manufacturer’s web site. Here is a list of certain sound cards which require special Direct X drivers to be downloaded from your sound card manufacturer’s web site:

- 1) Aztech Labs - standard in most Packard Bell computers (www.aztechca.com)
- 2) Crystal Semiconductor (www.crystal.com)
- 3) ESS Technology (www.esstech.com)
- 4) MWAVE (<http://watson.mmb.sfu.ca/new.html>)
- 5) OPTi (www.opti.com) or (<ftp://ftp.opti.com/pub/multimed/>)
- 6) Sound Blaster 64 AWE or Sound Blaster 32 AWE (www.soundblaster.com)

If you have trouble finding Direct X drivers, you can also get drivers at www.drivershq.com or www.winfiles.com.

Question #5:

I want to play a head to head network game using TCP/IP protocol, but I do not know my IP address. How do I find out my IP address?

Answer:

If you have TCP/IP installed under Network Properties, Windows 95 has a built in command called "winipcfg". Go to the Start Button, choose "Run" and then type "winipcfg" and a dialog box will appear with your IP address. The person who creates a new game should enter in the IP address of their computer and the person joining the game should enter in the IP address of the computer where the game was created.

Question #6:

I inserted the MANX TT SUPERBIKE PC CD into the drive and am getting a message: "Line 253 = COMMON..." and the game will not install - what do I do?

Answer:

The solution is to download the Windows 95 CD-ROM drivers from your CD-ROM drive either from your CD-ROM manufacturer or from www.winfiles.com.

Question #7:

How can I optimize MANX TT SUPERBIKE PC to run faster on my PC?

Answer:

We have included several PC specific options to allow you to get the best performance possible on the PC. Some ways of making MANX TT SUPERBIKE PC run faster are:

- 1) Make sure you have the proper Direct X video drivers - this is the #1 cause of slow down (See answer to Question #2).
- 2) Make sure all other programs are closed or disabled.
- 3) Try playing with the sky turned off.
- 4) Try playing with perspective correction turned off.
- 5) Try playing in a low resolution or by hitting Shift + "-" .

Question #8:

I received a message saying "Glide2X.dll is not found". How do I fix this?

Answer:

This means that you do not have Glide installed. If you have a 3Dfx 3D accelerator card, download the latest Glide drivers from www.3Dfx.com

Question #9:

I am having trouble hooking up my gamepad/joystick. What do I need to do?

Answer:

MANX TT SUPERBIKE PC uses Direct Input, so all you should need to do is properly configure and calibrate your joystick/gamepad under the Joystick icon in the Windows 95 control panel. Once you have done this, start MANX TT SUPERBIKE PC, go to Options and choose the input method you want to use "Keyboard, Joystick or Keyboard and Joysticks.

NOTES

Product Support Policy

Your purchase of an Expert product includes free product support to help you get the most out of your software. All Expert products are thoroughly tested and come with a user's guide and/or help file. In most cases, the answer to many of your questions are in this guide and/or the help file.

If you are having problems starting or running the program, please feel free to give us a call. We can be reached at (305) 567-9996, Monday through Friday, 9:00AM to 5:00PM EST (Eastern Standard Time).

When you call, you should be at your computer. Be ready to give the Product Support Specialist the 10-digit program version number from the front of your program disk or back of the CD jewel case, as well as the following information:

If you have a Macintosh-compatible computer:

- Please have the model, system software version and amount of memory available.

If you have Windows- or MS-DOS-compatible computer:

- The version of DOS that is installed on your computer. (You can determine the version by typing VER at the DOS prompt.)
- The version of Windows® installed on your computer.
- The type of hardware you are using:
 1. The brand of computer you own,
 2. CPU type (80386, 80486, Pentium),
 3. Video type (EGA, VGA, Super VGA),
 4. Model and type of video card, and
 5. Model and type of printer.
- The exact wording of any messages that appeared on the screen.
- What happened and what you were doing when the problem occurred.
- We encourage Windows® (or MS-DOS 6.x) users who need product support to print an MSD report. Have it available for the Product Support Specialist who answers your call. You will find the MSD (Microsoft Diagnostics) program in either the Windows or the DOS directory.

In case of defective disks

If the disk or disks should fail within 90 days of purchase, please return the original disk with proof of purchase for FREE replacement. After 90 days from date of purchase, please include \$4.00 for replacement. You can obtain a replacement disk of the program by returning the defective copy, and your proof of purchase to Expert Software, Inc. Attention: Customer Service, P.O. Box 144506, Coral Gables, FL 33114-4506.

Trademarks

Expert Software and the Expert brand logo, and Resume Writer are trademarks of Expert Software, Inc. Smart Software is a trademark of Smart Software, Inc. Expert Software License Statement

This software is protected by both United States Copyright Law and International Treaty provisions. Expert Software, Inc. grants you this license and your continued use confirms your agreement. Therefore, you must treat the software "just like a book," with the following single exception: Expert Software, Inc. authorizes you to make archival copies of the software for the sole purpose of backing up your software and protecting your investment from loss.

By saying "just like a book," Expert Software, Inc. means, for example, that the software may be used by any number of people and may be freely moved from one computer to another, so long as there is no possibility of being used at one location while it's being used in another. This is just like a book that cannot be read by two different people in two different places at the same time; neither can this software be used by two different people in two different places at the same time.

This agreement shall be construed, interpreted, and governed by the laws of the state of Florida and shall inure to the benefit of Expert Software, Inc. its successors, administrators, heirs, and assigns.

Limited Warranty

Limited warranty on product disks. To the original buyer only, Expert Software, Inc. warrants the disk or disks on which this product is recorded to be free of defects in material and workmanship under normal use for a period of 90 days from the purchase date. Any implied warranties of merchantability or fitness for a particular purpose are limited in duration to the period of 90 days from the date of purchase. Your sole and exclusive remedy in the event of a defect in material or workmanship under normal use is expressly limited to replacement of the defective item.

This warranty gives you specific legal rights, and you might also have other rights which vary from state to state.

No warranty on product software or User's Guide. Even though Expert Software, Inc. has tested the software and User's Guide and reviewed their contents, Expert Software, Inc. and its distributors and dealers make no warranties, either expressed or implied, with respect to the fitness for a particular purpose. The software and User's Guide are distributed solely on an as is basis. The entire risk as to their quality and performance is with you. Should either the software or User's Guide or both prove defective, you (and not Expert Software, Inc. and its distributors and dealers) assume the entire cost of all necessary servicing, repair, or correction. Expert Software, Inc. and its distributors and dealer will not be liable for direct, indirect, incidental, or consequential damages resulting from any defects in the software or User's Guide, even if they have been advised of the possibility of such damages.

Some states do not allow limitations on how long an implied warranty lasts or the exclusion or limitation of incidental or consequential damages, so the above limitations or exclusions might not apply to you.
