The Journey Begins

Waldo is going on a fantastic journey and YOU get to travel with him! Can you find him in each new and exciting world? Where are the magical items that can aid you on your quest? Meet all of Waldo's friends! Follow the Wizard Whitebeard as he guides you to wonder and adventure. Wenda and Woof are never too far away if you need help. But be on the lookout for Odlaw – you never know what villainous scheme he has planned! The whole family shares the fun in Where's Waldo? ® The Fantastic Journey!

Characters

Waldo

The hero of our story. Having traveled to so many different places, Waldo is finally taking on the one journey he's never attempted: learning more about himself. After meeting Wizard Whitebeard, he embarks on a quest to find 12 ancient scrolls, which may help him in his goal of self-discovery.

Wizard Whitebeard

A wise and gentle magician who imparts his knowledge to the younger generation.
Wizard

Whitebeard will be by your side the whole time so follow his guidance. One bit of advice however: don't mind this wizard's funny side – he's known for his slightly befuddled brand of humor!

Wenda

Wenda is currently training under Wizard Whitebeard in hopes of becoming the world's finest

explorer someday. Apart from her studies, she has a keen eye for photography and is always

carrying her camera. When you receive reports from Wenda, you'll participate in an exercise she

calls 'Lost Photos.'

Woof

Your loyal canine friend. If you have a bone for Woof, click on Woof should you

have trouble looking for something. He is also a very clever dog with a penchant for puzzles

and brain teasers. He'll want to play a game or two of 'Spot the Difference' with you.

Odlaw

Watch out for this fellow! A dastardly trickster and a wily conniver, you never know when he'll show up and spoil your day. His plans to thwart Waldo and friends include unleashing a mess of Swamp Creatures to overrun each locale. But you'll be there to stop him!

Menus

Main Menu

Single Traveler: Begin the journey with Waldo in this one-player game.

Options: Adjust the audio settings or view the game's credits.

Journey Log Menu

After choosing Single Traveler, proceed to the Journey Log menu. This displays all of your game files, or Journey Logs. During the game, your progress is automatically saved to the Journey Log of your choice.

There are three options:

Create New: To start a brand new adventure, select an empty Journey Log. Next, you will be taken to the Edit screen, where you can enter your name using the letter keys provided. The selected Journey Log will use your name as the name of the file. Select the Checkmark icon to continue.

Edit: Change the name of your file by selecting the Edit option and then choosing the Journey Log you wish to edit. You can also change the character face assigned to your Journey Log.

Delete: Select the Delete option and then choose the Journey Log you wish to delete. A warning message appears to confirm your selection before the Journey Log is reset to empty.

Options

The Options menu uses movable sliders to adjust your volume preferences. Click the mouse on the corresponding option icon and slide it back and forth to adjust the volume.

There are three options:

Music: Adjust the volume of music in the game.

SFX: Adjust the volume of sound effects in the game.

Voice: Adjust the volume of voiceovers in the game.

the Game

Your journey takes you across 12 strange and unique worlds. Each one is full of exciting quests for you to complete. Your goal is to find Waldo and any hidden items as quickly as you can!

After every quest you are given a star rank. The better you are, the higher your rank will be. Can you achieve a five-star rank for every quest? With Wizard Whitebeard's tutoring and a little practice, you never know...

In-Game

Interface

Search Window: The search window displays every character and hidden item that you need to look for. New hidden items will be continuously added here until you come to the end of your quest.

Star Meter: Watch the star meter carefully, as it decreases over time. Once it is empty, all the stars will fade away. The goal of each quest is to retain as many stars as you can. If you achieve a five-star rank, Wizard Whitebeard will present you with a special gift as reward for the highest possible achievement.

Hint Window: By clicking the mouse button on Woof, you will be aided in your search for the hidden item currently highlighted in your Search Window. As you move the screen, Woof will let you know when you are close to the hidden item. Listen for his bark and watch for the glow around your cursor. Try to find as many Woof Bones as you can in order to keep using this ability.

Map Tracker: This is a miniature version of the map. It will track your current position and allow you to see the entire map with just a quick glance.

Waldo's Worlds

After every quest you complete, you'll return to Waldo's Worlds, the central hub of the game. Entering this area allows you to receive updates from Wizard Whitebeard and Wenda. More importantly, after meeting certain in-game conditions, your next destination will be revealed and the journey will continue. Each destination appears by its own landmark, identifying each unique world. To see which area you will travel to next, simply click the mouse button on the Quest Bubble hovering over a particular landmark and you will be transported there magically!

Globes

During your travels, you may uncover mysterious and powerful objects called Globes. These Globes contain magical properties which, for a limited time, can either enhance your searching skills or hinder them – it just depends on which type of Globe you find! Some globes may even require you to perform specific actions with the mouse in order to carry out the effect! Just watch for the mouse animations that appear on the screen whenever a globe is activated.
