3Dfx/PowerVR

Maximum System Requirements

Pentium 200 CPU
32Mb RAM
8x CD-ROM drive
4Mb Video Card (DirectX compatible)
Sound Blaster or compatible Sound Card
3Dfx/PowerVR

THE FUTURE PLACE

"The world of tomorrow turned out to be just like the world of today. Sure, some things have changed. After the escape of the Petrol Bug a few years back, technology 'kinda took a side-step. It turned out some eastern company had created a new kind of super light-powered battery pack. When the petrol vanished, they started using these power packs to run practically everything. Cars, factories - even food mixers! Then they started making real-life, honest to God ray guns, and things really went wild.

See, all the wealth and power was now going into the various companies that grew up round the power packs. The original governments and ruling powers had always lived off the backs of the old industrial economy, and with that out of the way they were near dead. Crime became rampant throughout the cities. This was partly due to the new technology they could get their hands on, but mostly because the cities couldn't afford to run the police departments anymore.

For a while there, things started to look really bad. Until last year, when the URIEL Consortium bought the City Police Department and let them back out onto the streets complete with trademarks and a logo. URIEL had been the founding father of the company which had accidentally created the Petrol Bug, so I guess they were just trying to make amends. Whatever. Now

the cops are just as well armed as the criminals and a full scale war is going to break out between law and lawlessness."

CONTROLLING YOUR VEHICLE

You can customise your keyboard configuration but the default settings are as follows-

Steer Left	- Left Cursor
Steer Right	- Right Cursor
Scan	- Left Shift
Rear View	- Page Down
Accelerate	- Up Cursor
Brake	- Down Cursor
Special Move	- Spacebar

Lara Sweeney

An a.c.e manual

GAME SCREEN

MAIN MENU

Use the Cursor Keys to highlight required options. Press the **ENTER** key to confirm. Press the **ESCAPE** key to return to the previous menu.

Note:

The game will automatically enter the demo mode if no selections are made. Press any key to return to the main menu.

- Start Game - A brief cinematic sequence will play, taking you into the first mission.
- Load Game - Use this to continue playing from a previous game.
- Options - Use the Up / Down controls to choose an option.
- Credits - Press Escape to exit the credits movie.

OPTIONS

- Controller Setup - Allows you to redefine the default keyboard configuration for controlling your vehicle.
- Sound Levels - Allows you to adjust the in-game sound and music levels.
- Language Selection - Allows you to choose from the game language settings.
- Music Selection - Allows you to choose from the in-game music tracks.

PLAYING THE GAME

Selecting Start Game will take you in to the first mission, where you will be in control of the Patrol Car. Take a few minutes to get used to the controls and learn the lay out of the city block. When you feel ready, activate your police scanner by pressing the Left-SHIFT key (default settings). If there are any reported crimes in the area, a target will appear on the dashboard display. If no targets appear, drive to another area and try scanning again. Once you have a target, carry out the orders sent from police dispatch. When you successfully completed the order, re-activate your scanner for the next potential felon.

WEAPONS

Your police vehicle will come supplied with a variety of weapons, ranging from standard issue and passive systems, up to ammo-hungry special issues. As you play, more weapons become available.

Auto Cannon

The standard, all vehicle weapon. Useful for taking out targeted felons without endangering too many innocent civilians.

Pacifier

Used as a non-violent pacifier, this projects ultra-low frequency sounds at targets. This not only disrupts electronic systems but also induces unconsciousness in vehicle passengers.

Vulcan Cannons

Powerful, yet restrained. These will bring down most of the normal felons you will encounter while on patrol.

Flechette

The more powerful brother of the vulcan cannon. Useful against particularly uncooperative felons.

Mass Driver Cannon

The MDC is high-penetration weapon, allowing for maximum damage to be inflicted on armoured vehicles.

The Cluster

launching a spread of small, Hi-Explosive shells in front of the police vehicle, this weapon can ensure a wide area of contact. Useful for taking out group targets.

PICK-UPS

Available from Police Drop-ships, when destroyed, these can contain;

Shield Pickup

Restores your vehicles armour level.

Weapon Pickup

Replaces your vehicles special weapon.

Ammunition Pickup

Replenishes your special weapons ammunition level.

LOAD/SAVE INSTRUCTIONS

After successfully completing one of the missions, before proceeding to the next mission, a screen will appear, which will prompt you to save the current game position. You have a choice of one of five slots that you can save your game to. You have to select one of the slots and then press **ENTER** to save the game.

To load a previously saved game, from the Main menu you must go into the Options menu and select Load Game. You will now be able to select to load your saved game.
