- Save / Load -

You can save the exhibition games up to 15 files.

Select one of the file and press ok button.

- Controls -

- Serve -

1. Press any shot button to toss up.

2. Press LEFT or RIGHT to change horizontal direction. Press UP or DOWN to change ball speed.

The amount of changes are in proportion to the length of pressing time.

3. Press any shot button to serve.

It is recommended to use "normal shots" to safer 2nd serve.

- Shots -

According to the player position and the ball, the shot kinds are going to selected automatically.

You can decide rough horizontal direction by holding the LEFT or RIGHT button down the moment of impact,

and control delicate direction by timing in hitting the ball.

You can hit long shots by UP and short shots by DOWN.

- Etc. -

F1 Toggles help display.
