1. Place the Golf Resort Tycoon 2 CD in the CD-ROM drive.
2. Click on [Start], then select [Programs].
Select [Activision Value/ Golf Resort Tycoon 2/ Play Golf Resort Tycoon 2] to start the game.

Golf Tycoon 2 Overview

You have been hired to build and manage a new golf course in town. The goal is to develop a course that is beautiful, economical, and profitable. As the course designer you will oversee all construction projects, and have the ability to adjust costs and organize events that will attract more golfers. Your job will be to make guests happy and keep your resort in good working order while maximizing profits. The rating of your course will be dependent upon the difficulty of the course you design and quality of the facilities that you provide. Make sure that there are plenty of food and shelter locations for patrons visiting your resort.

Main Menu

Once you have started the game and seen the opening movies, you will find yourself at the main menu. By clicking on Settings you will be able to adjust the game resolution, frame rate, render type, and sounds. If you click on the Challenges button this will take you to another menu screen that describes different challenges you must overcome to have a successful resort. The Load

Game feature will allow you to resume any previously saved games. Instant Action will allow you to practice your techniques on any of the terrains.

Instant Action

In this mode there are no objectives and no set time limit. You are allowed to “Free Play” for as long as you would like, or until you run out of money. When first starting out, the Instant Action feature is very useful for becoming familiar with the objects in the game.

In Game Controls / Interface:

1. Rotate the map to the left
2. Rotate the map to the right
3. Zoom in on the map (smaller viewable area)
4. Zoom out on the map (larger viewable area)
5. Turn Grid on (useful while editing the terrain)
6. Choose support buildings / Grounds keepers
7. Choose amenities for the Golfers
8. Terrain Editor
9. Build Golf Holes
- A. Build Landscape Items
- B. Resort Statistics
- C. Weekly earnings reports
- D. Golfer feedback
- E. Employee status / feedback
- F. Save / Abort game
- G. Adjust game speed (2X, 3X)
- H. Turn on Minimap (displays hole, building, and golfer locations)

New Game

When starting a new course, you will be presented with challenges that must be overcome in order to develop a popular resort. Before each challenge begins, a character will appear on the

screen who will give you a description of your goals and how long you have to complete them. As you progress through the challenges they will become increasingly difficult.

Save / Load Game

If for some reason you must quit the game before accomplishing all the goals, make sure to click the disk icon in the upper left hand corner to save your game. Next time you start your game you can choose the load option and select the game that you saved earlier.

First Person Golfing Instructions

1. In order to get play your course, you may use two separate methods:
 1. Play one hole at a time by right-clicking on the tee-box and choosing the lower right hand corner icon to play the hole.
 2. By choosing “Golf A Course” from the main menu.
 3. In the first method you will be brought directly to a screen that looks similar to the one pictured below. If you choose “Golf A Course” you will then need to select a character (or create your own) and select a course. Each one of the courses in the game is 18 holes long (unless you choose one of your own courses that is shorter).

Listed below are the controls that will be used while golfing:

1. Rotate the shot aim to the right
2. Rotate the shot aim to the left
3. Move the camera angle to a higher elevation
4. Lower the camera angle
5. Zoom in the Camera
6. Zoom out the camera
7. Select a wood to use
8. Select an iron to use
9. Select a wedge to use
- A. Select your putter
- B. View Scorecard
- C. Abort / Save game
- Z. Swing Meter
 - i. Left click once to start your swing
 - ii. Left click a second time on the swing meter to determine the power of your swing (the higher it goes the more power it will have.)
 - iii. Once you have determined the power of your swing, a green bar will appear at the bottom of the meter.
 - iv. Left click in this green area in order to begin the swing.
 - v. If you click either to the right or left of the green bar, the ball will either hook or slice.

Hints / Tips

1. Right click on your maintenance crew and / or pest control to assign them specific holes to work on.
2. Keep things interesting! Right click on the tee box of the hole to bring up the menu for that particular hole. Once you have brought up the menu you may select the lawnmower tab at the right and choose a different pattern for each hole.

Customer Support

You should read through the manual and the readme file on the CD before contacting Activision Value Customer Support. Additionally, if you have internet access, check out our website at: <http://www.activisionvalue.com/>

Please ensure that your computer system meets the minimum system requirements that are listed on the bottom of the box. Our Customer Support representatives will not be able to help customers whose computers do not meet the requirements. So that we can better help you, please have the following information ready:

- Complete product title (include version number)
- Exact error message reported (if any) and a brief description of the problem
- Your computer's processor type and speed (e.g. Pentium 200 MHz)
- Amount of RAM
- Make and model of your video and sound card (e.g. Diamond Viper V770, Creative Sound Blaster Live Platinum)
- Make and model of your CD-ROM or DVD-ROM drive (e.g. Samsung SC-140)
- Operating System

NOTE: Please do not contact Customer Support for hints/ codes/ cheats; only technical issues.

NOTE: Support is handled in English only.

Internet:

<http://www.activisionvalue.com>

Our support section of the web has the most up-to-date information available including patches that can be downloaded free-of-charge. We update the support pages daily so please check here first for solutions.

NOTE: You must be at least the age of 13 years old in order for us to assist you when contacting Customer Support.

E-Mail:
support@activisionvalue.com

The best way for you to help us aid you is through the use of the E-Mail Support. Simply click on the E-Mail link from a FAQ section of our website. You can also e-mail us directly at the above e-mail address. Please ensure that you include all of the bulleted information asked above for the computer you are running the program from when e-mailing to the above address. A response may take anywhere from 24-72 hours depending on the volume of messages we receive and the nature of your problem. During the first few weeks of a game release and during holiday seasons the response time may take a little longer

NOTE: The multiplayer components of Activision Value games are handled only through internet/ e-mail.

Phone:(952)918-9500

You can call our 24-hour voice-mail system for answers to our most frequently asked questions at the above number. Contact a Customer Support representative at the same number between the hours of 9:00 am and 5:00 pm (Central Time), Monday through Friday, except holidays. When calling please make sure you are in front of your computer with the power on and have all the necessary information as listed above at hand.
