Introduction

Congratulations, you can now create your own ice skating routines! With Kristi Yamaguchi's Fantasy Ice Skating it's very easy to choreograph your very own routines, complete with music, in your choice of settings. You will also be able to dress Kristi in many different outfits and print them out to show your friends and family.

You can design an outfit for Kristi choosing from many different tops, skates and other accessories. With all of the clothing you can put together hundreds of different outfits with a click of your mouse. When you are finished with your outfit you can save and print it out.

Designing a routine is simple and fun. Once you have picked out the music, chosen Kristi's moves and picked a location, you can watch her perform her routine instantly! Please read through this manual carefully to learn all of the exciting features available before you get started.

Follow the simple instructions on page 5 of this manual to install Kristi Yamaguchi's Fantasy Ice Skating. You'll be watching Kristi perform some of her famous moves in no time.

System Requirements

In order to play Kristi Yamaguchi's Fantasy Ice Skating your computer must meet the following hardware and software requirements. The minimum system requirements are:

- Pentium 75MHz or 100% compatible PC or faster processor
- Windows© 95
- Quadruple speed CD-ROM drive (4X or greater)
- 16MB RAM
- 50MB hard drive space
- Mouse
- 16 Bit color video card (PCI or VSA)
- 16 Bit sound card
- Direct X compatible sound and video cards
- Windows 95 compatible inkjet or laser printer

Installing and Running Instructions

Insert the **Kristi Yamaguchi Fantasy Ice Skating** CD-ROM disc into your CD-ROM drive.

- ① Click **Start** on the Windows 95 task bar and choose **Run...**
- ② Type **D:\setup.exe** (where D is your CD-ROM drive) and click on **OK**.
- ③ Follow the on screen instructions.
- ④ After the game components are installed, you will be asked to install the latest version of DirectX. It is highly recommended that you choose **Yes** at any of the on screen prompts (even if it recommends you choose **No**).
- ⑤ After installation is complete, you may be asked to restart your machine. Choose **Yes**.

You will find a **Kristi Yamaguchi Fantasy Ice Skating** icon on your desktop, and within **Programs** under the **Start Menu** on the Windows 95 task bar.

Note: You must have the **Kristi Yamaguchi Fantasy Ice Skating** CD in your CD-ROM drive to play.

Installing and Running Instructions (Continued)

You can begin playing Kristi Yamaguchi Fantasy Ice Skating by first placing the CD-ROM in the drive and either selecting the  icon or by selecting **Start, Programs, Kristi Yamaguchi Fantasy Ice Skating** and the **Kristi Yamaguchi Fantasy Ice Skating** program icon.

Please read through the rest of this manual carefully to learn all of the exciting features available before you get started.

Note: Kristi Yamaguchi Fantasy Ice Skating recommends but does not require a 640 X 480 screen resolution.

To uninstall Kristi Yamaguchi Fantasy Ice Skating, select **Start, Programs, Kristi Yamaguchi Fantasy Ice Skating** and the **Uninstall Kristi Yamaguchi Fantasy Ice Skating** icon. Follow the on screen instructions to complete the uninstall.

Note: You must have the Kristi Yamaguchi Fantasy Ice Skating CD in your CD-ROM drive to play.

Getting Started

This section contains information to help you get started using Kristi Yamaguchi Fantasy Ice Skating. When you are finished with this section you should be able to:

- ① Start Kristi Yamaguchi Fantasy Ice Skating
- ② Navigate with the basic buttons and options
- ③ Select **Dress Up, Design Routine** or **Video** options
- ④ Exit the program

Starting Kristi Yamaguchi Fantasy Ice Skating

In order to start Kristi Yamaguchi Fantasy Ice Skating you must install the program first, refer to the **Installing and Running Instructions** on page 5. Each time you want to use Kristi Yamaguchi Fantasy Ice Skating you will have to place the CD-ROM in the CD-ROM drive before you start the program. You can start the program by double-clicking on the  icon found on your Windows 95 desktop, or select **Start, Programs, Kristi Yamaguchi Fantasy Ice Skating** and the **Kristi Yamaguchi Fantasy Ice Skating** program icon.

When you start Kristi Yamaguchi Fantasy Ice Skating you may notice a message about the screen resolution. Follow the on screen directions and click **OK** to continue.

You should see the Opening Screen. To continue click anywhere on the image. Kristi Yamaguchi will then introduce you to the program (press the **Esc** to skip the introduction).

After the introduction you should then see the Main Menu screen.

Opening Screen

Navigating with the Basic Buttons and Options

You can move to the previous menu in Kristi Yamaguchi Fantasy Ice Skating by simply clicking on the Menu Button Icon found in the upper right hand corner of the screen.

Menu Button

Help Button

Help is available by simply clicking on the Help Button found on the lower left hand corner of the screen.

When you click on the Help Button the pointer becomes a question mark. With the question mark you can click anywhere on the screen for help with a particular area. To exit help simply click on the Help Button again.

You can exit Kristi Yamaguchi Fantasy Ice Skating by clicking on the Quit Button from the Main Menu (see below).

Dress Up

Once you click on the Dress Up icon the Dress Up Screen will appear, displaying a full view of Kristi on the right side of the screen. Along the left edge of the screen are the six (6) Outfit item buttons. They are, from top to bottom: Hats, Tops, Bottoms, Gloves, Skates, and Accessories. When one of these Outfit item buttons are clicked on, the contents will be displayed on the left side of the screen.

To dress up Kristi, click on the desired item and then move it to the right side of the screen, click on the appropriate part of Kristi's body, and Kristi will now be wearing that item. You can change each item as often as you like.

Along the right edge of the screen are the New Outfit, Save Outfit, and Load Outfit and Print Outfit buttons.

Dress Up Screen

Dress Up – Outfit Buttons

These are the Outfit Buttons found on the left-hand side of the Dress Up Screen. Each button offers a different item for you to place on Kristi.

This is the Hats Button, there are seven hats that you can place on Kristi.

This is the Tops Button, you can place one of nine tops on Kristi.

Here is the Bottoms Button, with this button pressed you will have nine items to choose from.

Pressing the Gloves Button will show nine pairs of gloves to choose from.

With the Skates Button pressed you can choose from nine skates to place on Kristi.

This is the Accessories Button. There are fifteen accessories to place on Kristi.

Dress Up – Saving, Loading and Printing Outfits

You can save, load or print any outfit that you create for Kristi. The buttons along the right side of the screen allow you to start a new outfit, save the current outfit, load a saved outfit or print the currently displayed outfit.

When you click on the **New Button** you clear the current outfit from memory and start with a blank Dress Up Screen.

Click on the **Save Button** to save the current outfit. Type the name of the outfit in the Name Your Outfit box and click on the **Disk Button** to save the outfit (see the Name Your Outfit illustration below) or the **Crossed Out Disk Button** to exit.

The **Load Button** shows you the Closet Screen and all of the outfits in Kristi's closet. Click on the check mark to load the selected outfit. See next page for more information on loading outfits.

Click on the **Print Button** to print the outfit currently displayed on the Dress Up Screen. Make sure the printer is on and you have enough paper loaded before you click on the Print Button.

Name Your Outfit

Dress Up –Loading Outfits

The Load button displays the Closet Screen. If you have saved more outfits than can be displayed on one screen you can click on the arrow keys to show them. When you click on a saved outfit in the closet it will be displayed on the Dress Up Screen to the right. Click on the **Check Mark Button** to select that outfit. To erase an outfit from the closet, click on the **Eraser Button** on the left of the Closet.

Designing a Routine

After selecting the Design A Routine icon from the Main Menu you will see the New and Saved Routine Screen. If you want to create a whole new routine, then select **New Routine**. If you want to load a routine that you have started already, select **Saved Routine**.

New and Saved Routine Screen

Designing a Routine – Saved Routine

Selecting Saved Routine will bring up the Saved Routine Menu. A listing of up to ten saved routines will be displayed along the left side of the screen. To continue with a saved routine, click on the name of the routine on the left side of the screen and a picture of Kristi from that routine will appear on the right side of the screen. To load that routine, click on the **Disk Button** along the right side of the screen. To erase that routine from your hard drive, click on the **Eraser Button** along the right edge of the screen. If there are more than ten routines saved, click on the left and right arrow buttons along the bottom of the list window to scroll through more selections.

Saved Routine Menu

Designing a Routine – New Routine

Selecting **New Routine** brings up the New Routine Menu, where you can begin to create your new routine. The New Routine Menu allows you to select the music, moves and setting for Kristi's performance.

New Routine Menu

Designing a Routine – Music

Selecting Music will take you to the Music Selection Screen where you can listen and select the music for your routine. There are ten different musical selections to choose from. To choose your music click on any of the number buttons to the right of the CD Player, clicking on another number while the music is playing will change the song to the new selection. Once you have selected your music, click on the Menu Button  in the upper right hand corner of the screen.

Music Selection Screen

Designing a Routine – Settings

Selecting Settings will take you to the Settings Selection Screen where you will be able to select the background for Kristi's routine. Click on any of the three postcards to select the scenery background for your new routine. The background will appear to the right of the postcards in an enlarged display area. Once you have selected your setting, click on the Menu button in the upper right hand corner of the screen.

Settings Selection Screen

Designing a Routine – Moves

Selecting Moves will take you to the Routine Creation Screen where you will be able to create a routine for Kristi to perform. Each of her moves can be previewed and you can play the finished performance from this screen as well.

The majority of the screen displays an Ice Rink where you place your individual moves. Just under the Ice Rink is the Move Selection Bar, showing the available moves from the selected category. Below the selection bar along the bottom of the screen are the five Move Categories.

Designing a Routine – Move Categories

There are five Move Categories in Kristi Yamaguchi Fantasy Ice Skating. Each category has specific moves that Kristi can perform.

Poses

Jumps

Spins

Connecting

Combination

Move Categories

Poses are the introductory and ending moves. Kristi has two introductory poses and two ending poses. There are eight Jumps, six Spins, ten Connecting and five Combination moves that you can have Kristi perform in her routine.

Use the introductory poses to start Kristi's performance and the Connecting moves to tie the Jumps, Spins and Combination moves together into one great routine!

Designing a Routine – Moves

On the right of the Routine Creation Screen are the buttons used to play, preview, save and clear your routine.

This is the **Play Routine Button**. This will play all of the moves in your routine in the setting and with the music you have chosen in the Music and Settings Screen.

This is the **Preview Button**. You can see Kristi perform the selected move using this button. Once you select this option you can play and rewind the move using the arrow buttons.

This is the **Save Button**. You must name the routine the first time you save it. Click on the **Disk Button** to save the routine or the **Crossed Out Disk Button** to exit.

This is the **Clear Button**. This will clear all of the moves in the currently displayed routine.

To preview a move either click on a move in your routine or select a new move and then click on the **Preview Button**. The preview screen will then display the selected move in the viewfinder. You can manipulate the preview after it plays through the move by either clicking on the **Rewind Button**, the **Frame Advance/Retreat** buttons, **Fast Forward Button**, and/or **Play Button**. Select the red **Close Button** just under the Play Buttons to exit the preview screen.

Designing a Routine – Creating a Performance

Once you select a category from the Move Categories a spotlight will appear on the ice rink. Now click on any move in the Move Selection Bar above and that will be the first move of your new routine.

Move Selection Bar

Start your performance with one of Kristi's introductory poses. After that move has been placed, the spotlight on the Ice Rink will move to the next available space for the next selected move. A total of twelve moves can be visible on the ice rink at a time. Once the ice rink has been filled with moves, a new blank ice rink will appear. On either side of the ice rink and Move Selection Bar are Scroll Arrows, which will be highlighted when you are able to see more moves than are currently visible.

Use the mouse and right click on any move in the Move Selection Bar for a description of that move.

Designing a Routine – Creating a Performance

If you wish to erase a move from the routine, click on the move you wish to erase and then click on the Cut Button. If you wish to insert a new move, click on the area in the Ice Rink in which you want to insert and then click on the Insert Button and the desired move. The Cut and Insert buttons are on the lower right hand side of the screen.

This is the **Cut Button**. Click on this if you wish to remove a move from the routine.

This is the **Insert Button**. Click on this if you want to insert a move into the routine.

Once you have finished designing your routine click on the **Play Routine Button** to see the complete performance! If you wish to skip through a particular move during the performance just hit the **Esc** (Escape) key on your keyboard.

Design Tips

- Start your routine with one of the introductory poses and end your routine with a final bow pose.
- Use the Connecting Moves between Jumps, Spins and Combination moves to tie the routine together.
- If Kristi ends a move skating forward the next move in her routine should begin with her skating forward as well. This gives the routine a fluid and dramatic feeling.

Troubleshooting

This product utilizes DirectX libraries. Upon installation Kristi Yamaguchi Fantasy Ice Skating will attempt to install DirectX for you.

Any "Initialization" errors encountered are usually due to older, non-DirectX compatible video or sound cards or drivers - even if you feel your computer is *new*. You must upgrade your card's drivers. Most manufacturers have Internet Web sites where you can download these drivers free of charge.

Please contact your card's manufacturer and obtain the latest drivers.

Known Bugs & Workarounds

The DirectX Sound library exhibits bugs when running under Windows NT. We recommend checking the Microsoft web page for an update to the Windows NT DirectX library. Sound is particularly unstable on Windows NT machines.

Video Problems?

If you notice a lot of screen flicker or a slow refresh when playing the game, you might need to adjust a setting or two in the Display section of your Control Panel. If there is an option called "Page flip during vertical blank", "Page flip during vertical retrace", or something similar; you should turn this option ON. This should eliminate the flickering problem you see on your screen. Or right-click on My Computer, select Properties, then Performance. Click Graphics, then reduce acceleration a few notches (or all the way) until the video problems go away.

Video Problems? (continued)

If you notice that the playback of your routine or any other video sequence tends to slow down and/or stop momentarily, you can optimize your CD-Rom drive to perform smoother. Double click on the System icon inside the Control Panel folder. When the System Properties screen is displayed, click on the Performance tab in the top right corner. Then find the File System button in the lower left corner and click on it. When the File System Properties screen is displayed, click on the CD-Rom tab. Then set the Supplemental Cache Size to: **Large** and the Optimize Access Pattern for **No read-ahead**. Click on **OK**. Windows will tell you to Re-start your computer, click on **Yes**.
