Introducing . . .

Magic Spells

Magic Spells is a captivating educational program that turns the routine of spelling into a delightful adventure. In a magical kingdom of knights and ladies, musicians, and a unicorn, children learn essential spelling skills by unscrambling words and reproducing flashed words. With over 500 words and an easy-to-use editor for creating customized word lists, children from kindergarten to junior high will discover that learning to spell is as fun as playing a game.

The program features large, easy-to-read text, upper- and lower-case letters, and a format that provides immediate feedback on incorrect letters and hints when necessary. Children see a word list before each game and review missed words after the game, so they get the reinforcement they need to master difficult words. Colorful animations and amusing sound effects keep motivation high and encourage correct responses. Correctly spelled words are rewarded with brightly colored banners in the castle windows and a glimpse of life in the castle. Incorrect responses provide an opportunity to try again.

The word lists for both the Scramble and Flash games are organized in six levels appropriate for Grades 1 through 6, in addition to a "special" level of frequently misspelled words. Children can also develop their own temporary word lists in the game. A program editor, Spells Writer, can be used by parents or teachers for saving any number of new word lists on a separate disk. Word lists can be created for any subject area, such as history, geography, or science.

With exceptional graphics, a proven educational approach, and the flexibility to grow with the child, Magic Spells will be played with enthusiasm by spellers and vocabulary builders of all ability levels.

Welcome to Magic Spells

Come and explore the Castle of Spells and meet the people at the court—from the page and the milkmaid to the dancing unicorn! You'll learn how to spell all kinds of words—short words, long words, simple words, and hard words. With royalty there to help you, learning to spell couldn't be easier!

In the Castle of Spells, you can unscramble letters to make words or recreate words flashed in the castle door. Whenever you spell a word just right, you'll watch a banner appear in a castle window. When you spell a word correctly on your first try, you'll get a peek at life in the court through the balcony window. And when you finish a whole list of words, the most surprising things can happen!

You can play a game of Scramble or Flash alone, or you can make up your own word list and have a friend use it to play. In no time at all, you'll discover that spelling is fun, and as easy as ABC!

Getting Started

To load the Magic Spells program:

- ☐ Put your Magic Spells disk in the disk drive and close the door.
- ☐ Turn on your computer.

SELECTING PROGRAM OPTIONS

After the opening picture, the main menu appears. To select an option, type its number. Press **RETURN** to begin.

1. **CASTLE OF SPELLS** is the game you can play two ways—with scrambled words or words that flash. You can play with a Royal List of words or create a list yourself to use in the game.
2. **SPELLS WRITER** is an editor that lets you create your own Royal Lists. You can add as many word lists as you want, save them on a separate disk, and use them in the Castle of Spells game.
3. **INSTRUCTIONS** gives you help on using the program.
4. **LEAVE** lets you exit the program. You can also press **ESC** at any time to stop a game in progress or leave the Spells Writer editor.

Castle of Spells

When you choose CASTLE OF SPELLS from the main menu, another menu appears. The options on this menu let you change the game, turn the sound on and off, start the game, or return to the main menu.

You don't have to set any options to begin playing the game immediately, but you may want to change the level of the word list as described on page 4. Level 1 is the easiest, 6 is the most difficult, and SPECIAL is for lists of frequently misspelled words. Press **RETURN** to start the game using the options that are set in the highlighted windows. See page 7 for how to play.

SELECTING GAME OPTIONS

To set an option, type the number of the option you want to change. This moves the highlighted window to a new selection or changes the number in the window. When you've set the options the way you want them, press **RETURN**.

1. **SCRAMBLE/FLASH.** Choose how to play the game—with scrambled words or words that flash. The Scramble and Flash games are described on page 7.
2. **ROYAL LIST/YOUR LIST.** Choose to play with a Royal List of words or to create your own list to use in the game. If you select ROYAL LIST, see page 5. If you select YOUR LIST, see page 6.
3. **LEVEL.** Choose from levels 1 through 6 for your word list or choose SPECIAL. Keep pressing **3** to cycle through the levels one by one. See the Royal Lists on page 22 for a complete list of words in each level.
4. **SOUND.** Turn the sound off or on.
5. **FLASH TIME.** If you choose to play the Flash game, choose how long you want the word displayed. Keep pressing **5** to cycle through the seconds 1 through 9.
6. **START/RETURN TO MAIN MENU.** Choose START to begin the game; choose RETURN TO MAIN MENU when you want to stop playing. If you press **ESC** to stop a game in progress and return to this menu, CONTINUE replaces the START option.

USING A ROYAL LIST

When you select ROYAL LIST from the Castle of Spells menu, you'll see the List Names for the word lists in the level you selected. There are 5 lists with 10 words each for levels 1 and 2, 5 lists of 20 words each for levels 3 through 6, and 5 lists of 10 to 20 words each for the Special level. See the Royal Lists on page 22 for a complete list of words in each level. Also see page 22 for information on ordering a second disk containing additional word lists.

To choose a list:

- ☐ Type the number of the list you want and press **RETURN** to see the words.
- ☐ Press **RETURN** again to play the game.

To change options during a game:

When you stop a game in progress by pressing **ESC**, you'll return to the Castle of Spells menu. The ROYAL LIST/YOUR LIST in option 2 will be replaced with SAME LIST/NEW LIST/YOUR LIST.

Select:

- SAME LIST to return to the game using the same word list.
- NEW LIST to view the List Names and choose a new word list.
- YOUR LIST to create your own list of words to play in the game. (See page 6.)

Change any other game options you want and press **RETURN** to play again.

USING YOUR OWN LIST

When you select YOUR LIST from the Castle of Spells menu, you will be prompted to enter your own word list to use in the Scramble or Flash game.

To enter your word list:

- ☐ Type the first word beside the number 1. Use the special keys shown on page 21 for typing your word.
- ☐ Make sure you've typed the word correctly and press **RETURN**. The next number appears. Continue typing your words, pressing **RETURN** after each one. You can enter up to 20 words of 2 to 15 letters each.
- ☐ When your list is finished, press **RETURN** once again. Type **Y** to answer the prompt that your list is complete (or **N** to continue your list) and press **RETURN** for a last look at your words.
- ☐ Press **RETURN** again to play the game using your list of words.

To change options during a game:

When you stop a game in progress by pressing **ESC**, you'll return to the Castle of Spells menu. The ROYAL LIST/YOUR LIST in option 2 will be replaced with SAME LIST/NEW LIST/ROYAL LIST.

Select:

- SAME LIST to return to the game using the same word list.
 - NEW LIST to erase the list you entered and create a new one.
 - ROYAL LIST to view the List Names and choose a new word list.
- (See page 5.) Your list of words will be erased.

Change any other game options you want and press **RETURN** to play again.

PLAYING THE GAME

Join the people at the court in two of their favorite games—Scramble and Flash! To play Scramble, you need to unscramble letters to make a word. To play Flash, you need to remember a word that flashes on your screen and disappears. Whenever you type a word correctly, a colorful banner appears in one of the castle windows. There is one small castle window for each word on your list. When you spell all the words in the list correctly—without any clues or hints—you'll get to see some very festive court activities.

To play the game:

- ☐ Look at the scrambled letters or the flashing word in the castle door. (To make a flashed word disappear right away, press **SPACEBAR** or begin typing the word.)
- ☐ Type the word using the keys on your keyboard. Make sure all the letters are in the right place. Your word must have the same number of letters as the scrambled or flashed word. If you make a mistake, press **←** to erase the letter and try again. When you've finished typing the word, press **RETURN**.
- ☐ If your word was right on the first try, a special banner appears in the castle window and someone from the court will make an appearance. If your word was not quite right, you'll get a clue. The question marks in the clue show you which letters are wrong. Type the word again and press **RETURN**. When you spell the word correctly, a plain banner appears in the window.
- ☐ Would you like a little more help with your word? Press ***** to see where one of the letters belongs in a scrambled word, or to see the word flash again. You can press ***** as often as you like, but you must still type the whole word correctly before you can move on.
- ☐ Can you spell all the words in the list correctly on your first try without any help? If you do, the most special member of the court appears to entertain for you!

If you needed help on some of the words, don't worry. You'll still have a chance to see some court activities. When the word list is finished, just press **RETURN** to see the words you missed. Then press **RETURN** to play the game with those words. Keep playing until you spell each word correctly on the first try, without any help or hints.

When you finish a list of words, you'll be prompted "Play this list again? (Y or N)." Type **Y** for Yes to continue playing with the same words. Type **N** for No to return to the Castle of Spells menu. If you are playing with a word list you created in YOUR LIST, typing **N** will erase it. Then you can enter a new list or change the game in any way you like.

Spells Writer

When you choose the SPELLS WRITER editor option from the main menu, another menu appears. The options on this menu let you create word lists for saving on a separate disk. You can also delete and edit lists, and view and print names of lists and words in a list. An option is also included for formatting a blank disk to use as a storage disk for your word lists. The word lists you create in Spells Writer can be used as Royal Lists for playing the Castle of Spells game.

SELECTING EDITOR OPTIONS

To select an option, type the number of the option you want and press **RETURN**.

1. **CREATE LIST** lets you create a word list and save it on a separate storage disk.
2. **DELETE LIST** lets you erase word lists from your storage disk.
3. **EDIT LIST** lets you insert, replace, or delete words in a list on your storage disk or the Magic Spells game disk. If you edit a list from the Magic Spells game disk, you will need to save it on a separate storage disk.
4. **VIEW/PRINT LIST NAMES** shows you the names of all the lists on your storage disk or on the Magic Spells game disk and lets you print them.
5. **VIEW/PRINT WORD LIST** shows you the words in any list on your storage disk or on the Magic Spells game disk and lets you print them.
6. **CREATE STORAGE DISK** lets you create (format) a blank disk or reusable disk for storing your word lists.
7. **RETURN TO MAIN MENU** lets you leave the Spells Writer editor.

- ☐ Refer to your computer's user's manual for additional information on duplicating disks.

The Learning List

Magic Spells is a playful way for children to develop essential spelling skills and increase their vocabulary. The games provide the opportunity for children to apply their visual discrimination skills while they improve their memory and concentration.

Royal Lists

The word lists used in Magic Spells are based on a patterned approach to spelling instruction. Each level develops a specific skill or set of skills appropriate to the corresponding grade level in elementary school. The five word lists in the Special level include words commonly misspelled by readers in Grades 1 and up. The lists were prepared by Pat Neu, Language Development/Disorder Specialist and Computer Assisted Instruction lab teacher in the Whisman School District, Mountain View, California.

You can obtain a second disk containing these word lists plus 25 additional lists for each level from 1 to 6 by sending \$7.50 to:
