

Problems

Ratios and Proportions

Answer: D. $\frac{5}{3}$

What is this ratio expressed in lowest terms?

\$2.50 to \$1.50

Ratios compare quantities by division.
The ratio of \$2.50 to \$1.50 is

$$\frac{\$2.50}{\$1.50} = \frac{25}{15} = \frac{5}{3}$$

OK
