GETTING STARTED

System Requirements

Supported OS: Windows Vista®/Windows® XP/2000

Processor: 800 MHz Pentium® III or AMD K6-III processor (1.5 GHz Pentium 4 or AMD Athlon™ recommended)

RAM: 256 MB (512 MB recommended)

Video Card: 128 MB DirectX® 9-compliant video card (256 MB video card recommended) (see supported list*)

Sound Card: DirectX 9-compliant sound card w/ 16-bit support

DirectX Version: DirectX 9.0 (included on disc)

CD-ROM: 16x or faster CD-ROM drive

Hard Drive Space: 700 MB for full installation

Peripherals Supported: Windows-compatible mouse and keyboard

*Supported Video Cards at Time of Release

NVIDIA GeForce® 2/3/4/FX/6/7/8 series

ATI® RADEON® 7000/8000/9000/X series

Matrox Parhelia®

Laptop versions of these cards may work but are NOT supported.

These chipsets are the only ones that will run this game. For the most up-to-date minimum requirement listings, please visit the FAQ for this game on our support website at: <http://support.ubi.com>.

Installation

Installing Petz® Dogz® 2

Insert the game disc into your CD or DVD-ROM drive. If you have enabled the Autorun option, the game installation will start automatically. Otherwise, double-click on the CD-ROM icon in the My Computer menu. Find Autorun.exe in the list of files and double-click on it to start the installation process.

Uninstalling Petz Dogz 2

To uninstall the game, click on the Game Uninstall icon in the Start menu. Follow the instructions to successfully uninstall the game from your computer.

GAME SETUP

Launch the game by double-clicking the Dogz icon on your desktop.

To start your new life with a pet, select a breed from the adoption center. You can choose the fur pattern, collar, and gender of your new friend. Type a name for your pet and you're all done! If you want, you can print out the adoption certificate before you take your pet home.

Main Menu

Adopt pets, make room for new additions to your family, or change your game settings.

Settings

Volume

Use this slider to change the overall volume of all in-game sounds.

Music

Use this slider to change the volume of background music.

Display

Higher resolutions will give you a better-looking image, but may cause the game to run slowly on older computers. Some resolutions may not be available on all systems.

Smoother Lines

When this box is checked, the edges of objects in the game will appear less jagged, but the game may run slowly on older computers. This option may not be available on all systems.

INTRODUCTION

Adopt and care for an adorable puppy on your PC! This amazing virtual pet needs food, water, grooming, and discipline, just like a real animal. But most of all, it needs your love. You can train and beautify your companion with unlocked surprises. Or you can sit back and watch it soak up your attention. Either way, you have a wonderful new friend who's always ready to play! You can adopt as many Dogz as you want – as long as you take care of them all!

Breeds

Beagles tend to be sweet and curious, with an obsession for food. They have an easy-to-care-for coat, but their stubborn streak makes them difficult to train.

Boxers are energetic, curious, and quick to learn, but they can also be stubborn and sneaky. Boxers require lots of companionship and exercise. They love to jump and play fetch.

As working dogs, **Border Collies** are great problem solvers. They're also extremely loving. Collies require lots of vigorous exercise, but their thick coats need grooming after playing outside.

Bold and fearless, **German Shepherds** are eager to train and love strenuous activity, but they also need constant companionship. Daily brushing helps with their shedding.

The **Labrador Retriever** is strong, athletic, and well balanced. Labs have an extremely sweet personality, are highly intelligent, and love being around people.

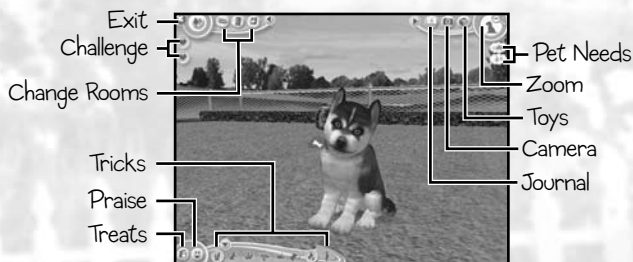

Rottweilers grow to be powerful, athletic dogs. They are calm, courageous, and serious. Careful training is essential for this highly intelligent breed, and they need lots of companionship to be truly happy.

The **Alaskan Husky** is an active breed. They are generally easygoing and playful, but are sometimes willful. They will only obey if they see the point. Huskies are picky eaters and may be difficult to housebreak.

PLAYING THE GAME

Quick Reference

Play

Take time to play with your new pet and you'll be well rewarded. Pets need love, affection, and attention. Without it, they get lonely and unhappy.

Game View

Click on the Zoom icon in the top right of the screen to zoom the view in and out. Move the cursor to the edges of the screen to look around. Try exploring your surroundings and clicking on various objects in your house.

Petting

To pet your puppy, zoom in, then hold down the left mouse button and rub the cursor over the puppy's body. Pets love to be scratched and stroked.

Toys

Click on the Toy Box icon to open it, then select any toy to play with. Some toys can be thrown into the yard by clicking and dragging them.

Care

Taking proper care of your pet is very important. Pets must be kept clean, well fed, and well loved, or else they'll get very unhappy. Your pet will let you know what it needs with little thought bubbles. Click on these to see what your pet is thinking.

Feeding and Watering

Your pet needs to eat and drink regularly. Supplies can be found in the kitchen. For water, click on the refrigerator to open it and take a bottle of water from a shelf. With the water in hand, click on your pet's water bowl to fill it up. For food, open the cabinet next to the refrigerator and click on a bag or can of food to pick it up. Click on your pet's food bowl to fill it. Let your pet finish all of its food or it will soon get hungry again.

Bathing and Brushing

Wash and brush your pet often. It loves to be kept clean. Click on the bathtub to shampoo your pet. Make sure to scrub all over with the sponge and rinse with the shower nozzle. Click on the tub again to leave and return to the bathroom.

You can also grab a hairbrush in the bathroom for a quick brushing. Click and drag over your pet to sooth and clean it.

Messes

If your pet makes a mess, click on the mess to clean it up.

Nap Time

After a day of exercise every pet needs a break. Click on the pet bed in the living room to encourage your pet to take a nap. You can pet and tickle your pet while it sleeps; just be careful not to wake it up.

Your House

To move between rooms, click on the icons in the top left corner of the screen.

Kitchen

Feed and water your pet in the kitchen. Make sure your pet stays out of the fridge! Click on the boom box to play some music.

Living Room

Dress up and pose for a photo shoot in the living room, or light the fireplace and settle down for a nap in your pet's bed.

Pet Park

Want to practice fetching? You'll have a lot more room to throw at the park. Take your Dogz for a walk and search for lost toys.

Bathroom

Keep your pet shiny and clean in the bathroom.

Tricks

Your pet is a fast learner and can be taught all kinds of tricks. Petting your puppy in various ways will sometimes reveal a trick. Try a combination of petting (clicking and rubbing your pet with the mouse), pushing (drawing straight lines on your pet with the mouse), and tapping (single-clicking on your pet with the mouse) to elicit tricks from it.

When your pet does do a trick, an icon will appear in the trick menu. Click the trick button to give your pet a voice command. This will teach the pet to associate the trick with that command. It takes a little practice for your pet to learn tricks well. You can encourage your pet to learn faster by giving it a treat after every success.

Training

Good or bad, pets have habits. You can make or break habits with careful use of treats and squirts from your squirt bottle. If you see your pet do something you like, give it a treat or a pat on the head. Use the squirt bottle to discourage your pet from doing things you don't like. Be careful! Squinting your pet too often will make it feel unloved.

Challenges

Challenge badges appear along the left side of the screen. Completing each task unlocks a surprise, including:

- Pet costumes
- New toys
- Furniture and decorations for your house

Photos and Journal

You can take pictures at any time. Press this icon to snap a photo. All photos are automatically saved in your pet's very own journal.

View your journal by pressing this button. You can organize and print photos, record your own notes, and see which challenge badges you've earned.

Dress Up and Pose

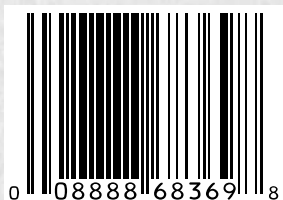

Click on the giant poster in the living room to dress up your pet and pose for photos. Complete in-game challenges to unlock hats, collars, and new fur styles. Use your imagination!

REGISTER NOW AT UBIREG.COM AND WIN!

It's simple: Go to UbiReg.com and register your product, and you'll be eligible to win great prizes including Ubisoft games and NEXT GEN CONSOLES! You can also get exclusive game updates, participate in surveys (actually help us develop new games!) and win other great Ubisoft swag! Look for the details on www.ubi.com.

Thanks,
The Ubisoft Team
