# Safety Information

## About Photosensitive Seizures

A very small percentage of people may experience a seizure when exposed to certain visual images, including flashing lights or patterns that may appear in video games. Even people who have no history of seizures or epilepsy may have an undiagnosed condition that can cause these "photosensitive epileptic seizures" while watching video games.

These seizures may have a variety of symptoms, including lightheadedness, altered vision, eye or face twitching, jerking or shaking of arms or legs, disorientation, confusion, or momentary loss of awareness. Seizures may also cause loss of consciousness or convulsions that can lead to injury from falling down or striking nearby objects.

Immediately stop playing and consult a doctor if you experience any of these symptoms. Parents should watch for or ask their children about the above symptoms – children and teenagers are more likely than adults to experience these seizures.

The risk of photosensitive epileptic seizures may be reduced by sitting farther from the television screen, using a smaller television screen, playing in a well-lit room, and not playing when you are drowsy or fatigued.

If you or any of your relatives have a history of seizures or epilepsy, consult a doctor before playing.

**Other Important Health and Safety Information** The Xbox Instruction Manual contains important health and safety information that you should read and understand before using this software.

## Avoid Damage to Your Television

**Do not use with certain televisions.** Some televisions, especially front- or rear-projection types, can be damaged if any video games, including Xbox games, are played on them. Static images presented during the normal course of game play may "burn in" to the screen, causing a permanent shadow of the static image to appear at all times, even when video games are not being played. Similar damage may occur from static images created when placing a video game on hold or pause. Consult your television owner's manual to determine if video games can be played safely on your set. If you are unable to find this information in the owner's manual, contact your television dealer or the manufacturer to determine if video games can be played safely on your set.

Unauthorized copying, reverse engineering, transmission, public performance, rental, pay for play, or circumvention of copy protection is strictly prohibited.

Thank you for purchasing Sonic Heroes™. Please note that this software is designed only for use with the Xbox™. Be sure to read this instruction manual thoroughly before you start playing Sonic Heroes™. Also note that this instruction manual cannot be re-issued, therefore please keep it in a safe place.

# TEAM INTRODUCTIONS

## TEAM SONIC

This tenacious trio of Sonic, Tails and Knuckles combines exhilarating high-speed action with medium difficulty playability.

Tails and Knuckles finally catch up with Sonic as he tours around the globe, and pass him a letter from his arch-nemesis Dr. Eggman threatening another outrageous revenge scheme. This time, the deranged scientist announces that he has finally completed his ultimate weapon, and in a matter of 3 days, he will be ready to bring the world to its knees!

Unlike Tails, disturbed by the message and unsure what will happen, Knuckles relaxes confident there's nothing to worry about. Sonic, however, shows a brief flicker of a smile and takes off again into the distance.

With that familiar grin of confidence, Sonic says he wouldn't miss this party for the world!

And this is how the three reunite for their greatest adventure to put an end to Dr. Eggman's wicked ploy.

### Sonic the Hedgehog

Age 15

The world's fastest supersonic hedgehog unrivalled in speed returns once more. Always the drifter, Sonic goes wherever the wind takes him, and lives life according to his own rules rather than the standards of those around him. He's basically easy-going, but when he gets fired up over an injustice, his anger explodes with surprising consequences. Always at the receiving end of this aggression is arch-enemy Dr. Eggman, whose fiendish ploys to take over the world are constantly being foiled by Sonic. Saving the world is a nice distraction, but Sonic is soon off to find his next adventure.

Watch out for the patented Light Dash manoeuvre whereby Sonic hurtles along a path of illuminated Rings, even through mid-air!

## Knuckles the Echidna

Age 16

An egotistical dreadlocked Echidna from the Angel Island, and appointed guardian of the Master Emerald. Sonic may be a drifter, but Knuckles' home is firmly fixed in the mountains. Wild, tough, stubborn and inflexible, Knuckles sees himself as Sonic's rival, perhaps because of his own dreams of a free lifestyle. He's also known as a treasure hunter, and possesses martial arts skills.

## Miles "Tails" Prower

Age 8

Don't let his docile appearance deceive you. This cute twin-tailed fox is an absolute mecha-maniac with skills rivalling those of Dr. Eggman. Humble about his abilities, he always does his best to help out Sonic, who sees him as something of a cute kid brother.

"Tails" can spin his tails like a rotor blade enabling him to fly.

## TEAM DARK

A villainous team of Shadow, Rouge and Omega. Skill and concentration is required to endure heavy battle.

Treasure hunter Rouge, who flies all over the world in search of precious jewels, one day hears that Dr. Eggman is accumulating a massive treasure collection. She immediately heads for Dr. Eggman's headquarters to liberate these riches, but discovers the base abandoned with all the valuables gone.

However, she comes across a stasis capsule that to her surprise houses the figure of Shadow. Far from being deceased as everybody thought, he was indeed very much alive, but unconscious. In order to release Shadow from the capsule, Rouge switches on the facility's power, unintentionally reactivating the final E-Series robot Omega. Shadow wakes to find his memory gone, unable to recall why or how he went into stasis.

Omega, on the other hand, was rather upset about Dr. Eggman shutting him down. Mistaking Shadow for one of Eggman's robots, he immediately starts to attack him.

Rouge steps in to break up the fighting, and reminding them both that their enemy is Eggman, the three shook hands and the team was formed.

"Yeah baby!" announces Rouge. "That makes us a team! Let's go find Eggman!"

### Shadow the Hedgehog

Time of Creation unknown

Created by the renowned scientist Professor Gerald at the peak of his career, this black hedgehog is the dark incarnation of Sonic, matching him in both speed and abilities. Shadow never ages, and can use a technique known as "Chaos Control" to distort time and space using the Chaos Emeralds. Since his fall at Colony Arc (Sonic Adventure 2 Battle) he was presumed dead, but has since been discovered by Rouge, alive and in suspended animation at Dr. Eggman's base. He now suffers from amnesia and has no memory of events prior to his release.

## E-123 Omega

Time of Creation unknown

The last and most powerful of Dr. Eggman's E-Series robots. Decommissioned and left imprisoned at the base, Omega was reactivated by mistake as Rouge released Shadow. From that point, Omega decided to destroy all of Dr. Eggman's machinery to take revenge for his imprisonment, and to prove once and for all that he is the strongest.

His wide arms contain all manner of concealed weapons and machinery making him a powerful force to be reckoned with.

## Rouge the Bat

Age 17

Rouge is a professional treasure hunter, forever in search of the world's most precious stones, and part time government spy. Fearless, bewitching, and overflowing with feminine charm, Rouge is dedicated to her work, and never leaves a task empty handed. Her external appearance suggests a careless character, but she is actually calculating and manipulative, basing her actions on potential gain rather than abstract morality or manners.

Her powerful wings enable her to fly with ease.

**TEAM ROSE**

A delightful trio of Amy, Cream and Big. Shorter missions are suitable for younger players.

Amy, crazily in love with Sonic as always, is concerned that she hasn't had any contact for over a month. Making little progress on his trail, she is about to give up hope when she catches sight of Sonic's picture in a newspaper.

In her excitement, Amy runs straight to the publishers to ask where the picture was taken, and on her arrival, she meets a huge familiar looking cat called Big and a cute rabbit named Cream. A quick exchange of stories reveals that Big is looking for his best friend Froggy, and Cream is looking for her friend Chao's twin Chocola, both of whom had appeared in the picture with Sonic. From this, they decide to continue their search together.

"You can't run forever Sonic! Mark my words we WILL be married!!"

**Amy Rose**

Age 12

An overly cheerful and a slightly erratic girl that poor Sonic just can't seem to shake off. Amy uses her natural initiative and positive attitude to pull the team together, and her weapon of choice, the Piko Piko Hammer, helps her to maintain authority. Despite her clearly defined goal to one day marry Sonic, he treats her as little more than an annoyance. In his heart he probably doesn't dislike her that much.

## Big the Cat

Age 18

A huge feline that lives with his best friend Froggy, peacefully in the middle of the jungle. His hobby is fishing, and he always has his favourite rod handy. Big is strong, but gentle, and very easygoing as is reflected in his carefree speech manner. He also does his best to help his friends. On this occasion, his best friend Froggy has gone missing, so Big sets off to try and rescue him.

## Cream the Rabbit

Age 6

A cute little rabbit that takes her tiny Chao "Cheese" with her wherever she goes, and at just 6 years old, is even younger than Tails. Brought up like a princess, she is a little naïve and simple minded at times, often getting herself wrapped up in other people's problems. She never forgets her manners, and even offers a polite curtsy before attacking Dr. Eggman, with extreme prejudice.

By flapping her huge ears, Cream can sustain flight. She also loves ice-cream cones.

## TEAM CHAOTIX

This devious team of crack detectives is made up of Espio, Vector and Charmy. Each Mission they undertake lands them in unexpected situations, which leads to some very unusual and sometimes dubious adventures.

The Chaotix Detective Agency is always at your service if the price is right. Lately however, things have been quiet with very little work available.

One lazy day, a mysterious package is delivered to Chaotix, and inside they find a transceiver which mysteriously promises a handsome payment if Chaotix will take on a case. Charmy is thrilled by the offer, but Espio remains sceptical due to the strange nature of the communication. Boss Vector, with dollar signs in his eyes, wastes no time in gathering his troop together to take hasty advantage of the opportunity.

"You know our policy! We never turn down work that pays!"

### Espio the Chameleon

Age 16

Opinionated and self obsessed chameleon at the Chaotix Detective Agency. He has a militaristic discipline despite being quiet and laidback, and thanks to extensive ninja training, he can face trouble head-on unconcerned by danger. His characteristics include a protruding horn, coiled tail, and a stealth camouflage trick that renders him invisible to enemy eyes allowing him to pass by unnoticed.

## Vector the Crocodile

Age 20

Outlaw detective and head honcho of the Chaotix Detective Agency. He can always find peaceful solutions to problems, providing an aggressive method cannot be found. Despite this, he's the brains behind the detective operations. He'll do almost any kind of work providing the payment is right, but won't get involved with anything dirty. His charitable nature sometimes leads him to take unpaid work, such as finding lost toys for crying children.

Vector can effortlessly defeat enemies by crunching them between his powerful jaws, a formidable weapon with a dazzling smile. His trademark is a set of headphones.

## Charmy Bee

Age 6

This scatterbrained funny-kid likes nothing more than fooling around, and making the remaining Chaotix staff look professional. Seen by the others as more of a cute mascot, he's generally good natured and light-hearted, but when he gets angry he often introduces the source of his anger to his stinging tail.

Charmy is neither clever nor powerful, but excels in following hunches and uncovering hidden objects. He is also able to mysteriously warp between flowers. His flying helmet is his trademark.

# ENEMIES

## Dr. Eggman

Age unknown

As his name implies, Dr. Eggman is a Doctor that looks like an egg. As well as having an unfeasibly high IQ of 300, Eggman is a romanticist, a feminist, and a self-professed gentleman. Sadly, his charms are often difficult to spot through the abominable laughter that accompanies his maniacal declarations of world domination. Sonic is always finding ways to stop his diabolical plots, but as with all great arch-enemies Eggman now sees Sonic as more of a rival than a threat.

## Mystery Monster

Time of Creation unknown

A mysterious robot that holds the key to destroy the world.

# BASIC ACTIONS

Sonic Heroes™ introduces the brand new Team Action control system, whereby teams of characters are controlled together in Formation. Each team has 3 members individually representing Speed, Fly and Power. The character leading the team at any given point determines the Formation type, allowing a unique set of manoeuvres to be performed. The following actions are common to each team and character.

## Move

Left thumbstick

Move the team leader freely in any direction while the team-mates follow close behind. Increasing the angle of the left analog stick makes the characters run faster.

## Jump

A button

Press the A button while running or standing still to jump in the air. A variety of special jump manoeuvres can also be performed (see Special Actions on p.15).

## Change Formation

Y or B button

Press the Y or B button to change the leader and rotate between Speed, Fly, and Power Formations. Depending on the Formation type, a variety of special manoeuvres can also be performed (see Special Actions on p.15).

## Team Blast

Black button

When the Team Blast Gauge is full, press the black button to perform the Team Blast move. This knock-out technique is ideal for situations where widespread destruction is called for, such as when overwhelmed by enemies. The Team Blast Gauge takes time to charge up, so use this move with caution.

# SPECIAL ACTIONS

## SPEED FORMATION MANEUUVRES

### Spin

Hold **X** button

Roll like a ball to increase speed and attack enemies.

### Rocket Accel

Hold **X** button, team-mates gather, release

Team-mates push the leader, propelling them forwards at high speed. Can also be used to attack enemies straight ahead.

### Solo Attacks

Hold **X** button, release (without team-mates)

The leader performs a special attack manoeuvre unique to that team. Sonic and Shadow attack forwards with a flying Kick, Amy flattens her surroundings with a Swinging Hammer Attack, and Espio throws Shuriken stars.

### Homing Attacks

Jump, **A** button

Targeted dash directly towards enemies. When team-mates follow through with the manoeuvre, the attack power is tripled!

**Tornado Attacks**Jump, **X** button

Spin at high speed to create a tornado effect that can home in on and weaken enemies. Espio combines this with a Ninja Leaf Swirl manoeuvre allowing him to sneak past enemies unnoticed.

**Light Dash**Approach path of Rings, **X** button

Enable Sonic and Shadow to dash at high speed along a path of Rings, even through midair.

**Propeller Hammer**Jump, hold **A** button

Amy can momentarily sustain flight by spinning the hammer like a propeller.

**Triangle Jump**Homing Attack towards wall, grabs wall, **A** button

Bounce between facing surfaces to pass across areas where there is no ground. Espio can also remain still on the wall without falling off.

## Fly FORMATION MANEUUVRES

### Ascending Flight

Jump, hold **A** button

While in Flying Formation, the leader carries their team-mates beneath and can fly until the Flight Gauge is used up.

### Quick Ascent

Ascending Flight, **A** button

Sudden dash upwards during flight that also doubles as a quick attack on enemies by stunning and grounding them, similar to Thunder Shoot.

### Thunder Shoot

**X** button

Launch team-mates like cannonballs towards enemies on the ground or in the air. A well-aimed shot will have the effect of stunning and grounding enemies.

### Solo Attacks

**X** button (without team-mates)

The leader performs a special attack manoeuvre unique to that team. Tails and Rouge fire Dummy Ring Bombs to stun enemies, Cream sends her tiny Chao "Cheese" to attack enemies on her behalf, and Charmy attacks directly with his stinging tail.
