- Double-Click on the **Spider-Man CD** icon in the window or right-click on the icon and choose the **Autoplay** option.

 1. Open the Windows Control Panel folder and double-click on the **System** icon.

- Open the Windows Control Panel folder and double-click on the **System** icon.
- Click on the **Device Manager** tab. Click on the **Plus** sign next to CD-ROM, select your CD-ROM and choose **Properties**.

DIRECTX™ 8

During the Spider-Man setup, the install process will determine if Microsoft® DirectX needs to be installed on your computer. If so, the Microsoft DirectX Setup Program will install the appropriate files on your computer. See the online Spider-Man Technical Help file for additional information.

Q: What is DirectX 8 and why do I need it?

A: Microsoft's DirectX 8 is a set of functions that give Windows games and other applications their power. These functions allow applications to perform advanced functions in networking, graphics, sound and input, beyond what's possible on other operating systems. It also accounts for many of the performance gains associated with Windows games.

Q: If I don't install DirectX 8 when I install the game, can I install it later?

A: Yes. You can manually install it. To do so, use the following instructions:

- Place the disc in the CD-ROM drive and exit from any Autoplay screens.
- Double-click on **My Computer**.
- Right-click on your CD-ROM drive and choose **Install DirectX**.
- Follow the installation process. When DirectX installation finishes, you will need to restart your computer for the new drivers to work.

Q: I already have other Windows games installed on my computer. Will the Microsoft DirectX Installer change my DirectX files?

A: If you already have other Windows games on your computer, chances are you already have the initial version of DirectX installed. In this case, the Microsoft Installer will detect and overwrite any previous versions with DirectX 8. At that point, you will need to restart your computer for the changes to take effect.

If, however, you already have DirectX 8 installed on your computer, the Microsoft DirectX 8 Installer will detect it and not overwrite any DirectX 8 files. You may not need to restart your computer after installation in order to run Spider-Man.

DIFFICULTY LEVELS

There are four different levels of gameplay to be found in *Spider-Man*. The three traditional skill levels are:

Easy: Novice game players should choose this difficulty level. More clues are present to solve puzzles. Enemies take less damage to subdue, and Spider-Man can absorb much more punishment than on Normal and Hard difficulty levels.

Normal: A step above Easy, this difficulty level will present the average game player with more of a challenge.

Hard: For extreme Spidey-players only! Even the seasoned Spider-Man veteran will find this mode more than challenging!

A special difficulty mode has been implemented to please young gamers.

Kid Mode: For children who want to explore the various levels of Spider-Man, Kid Mode allows them to do so with the controls configured for young hands and the gameplay customized to allow easy passage through each level.

UNDERSTANDING THE IN-GAME DISPLAY

The Heads-Up Display, or HUD, for *Spider-Man* is fairly simple. Spider-Man's health is represented by a horizontal bar that runs across the top of the screen. For webbing, the vertical bar registers how much web fluid is left in the web cartridge that Spider-Man is currently using. The number just to the right of this bar tells you the total number of web cartridges Spider-Man is carrying.

In the lower right hand corner is the Spidey-Compass. Occasionally the Spidey-Compass will appear in order to show you the direction you should be heading through the city, with up corresponding to "Forward" and down corresponding to "Back."

POWER-UPS AND ICONS

Within the game there will be a number of power-ups to aid Spider-Man in his mission. Each power-up has a different function, listed below. To obtain a power-up, run, crawl, or use your zip-line to make contact with it. If Spider-Man has reached his holding capacity for a certain item, the power-up will become transparent when you make contact with it. Here are some of the power-ups to be found in the game:

Web-Cartridges (Blue): Each web attack Spider-Man does (see *Spider-Man's Moves* section) will remove a portion of your overall webbing. Before you run out of webbing you'll need to pick up a new web cartridge. Web cartridges allow Spider-Man to execute his web attacks. Under normal conditions Spider-Man can carry up to ten web cartridges at any time.

Health (Red and White): Health cartridges serve to restore a portion of Spider-Man's health throughout the game. Be careful however, you'll never know just how much a particular health cartridge will restore you. Play wisely to conserve your health.

Armor (Gold): This rare power-up will change the costume and properties of Spider-Man for a brief time in the game. When you collect this power-up Spider-Man's suit will change to its armored configuration. The Spidey-Armor has its own health bar, so it will take damage and leave Spider-Man unharmed. However,

normal health cartridges will not work on Spidey-Armor, so be careful. Once its meter runs out, Spidey-Armor disappears and Spider-Man returns to normal. Also, Spidey-Armor increases the amount of damage Spider-Man does to his opponents while reducing the amount of damage an enemy can do to him.

Helper Icons: These icons will appear as an aid for less experienced players. The icons will inform you of anything from how to use your web to hints on how to solve some of the puzzles found in the game. To activate the helper icon simply walk through it.

Note: Some helper icons will seem to disappear without being activated. This only means that you have already performed the task it was intended to teach you.

TRAINING

Need to fine-tune your superhero skills? The training mode offers the opportunity to test out your crime-fighting skills in a number of different training environments.

TIME ATTACK

Instant action combat for either 60 or 120 seconds. Hone your fighting skills by eliminating as many villains as you can within the selected amount of time. You will also select the villain you will fight against. Use the **Directional Arrows up/down** to select both the time limit and type of enemy. Press the **Enter** key to confirm your selection.

SURVIVAL MODE

Survival mode is the ultimate test. No time limit, just an endless amount of foes to battle against. Once Spider-Man's health bar runs out, the fight is finished!

In Survival Mode there is also the opportunity to select the type of villain you will fight against. Use the **Directional Arrows up/down** to highlight both the time limit and type of enemy. Press the **Enter** key to confirm your selection.

SPEED TRAINING

Web-swinging is as important to Spider-Man as walking. Speed Training mode allows you to practice your web swinging through different parts of the city. The better you become at web swinging, the lower your time will be.

TARGET PRACTICE

Learn to determine friend from foe while sharpening your reflexes using Spider-Man's web-attacks.

ITEM COLLECTION

Test maneuverability, reflexes, and timing in either Item Hunt or Zip-Line Training modes.

Item Hunt: Practice your maneuverability in the labyrinthine Item Hunt area. Run, jump, crawl and web-swing in order to collect all of the gold Spider-Medallions as quickly as possible in order to get the best time.

Zip-Line Training: For the more daring game player. Test out your timing and accuracy in this mode. Descend from the ceiling by pressing the **Jump** button to pick up as many Spider-Medallions as possible. Then use Zip-Line webbing by pressing the **Zip-Line** button to return without touching the deadly electrified floor. More medallions mean a higher score.

RECORDS

Only those who really know what it means to be a superhero make it into the Records. Use the **Directional Arrows up/down** to highlight a specific set of records. Press the **Enter** key to confirm the selection. To exit, press the **Esc** key.

SPECIAL

COSTUMES

Spider-Man hasn't always worn the familiar red and blues that most people know. Over the years of being a superhero there have been times when a different suit was necessary to overcome certain challenges. In the game, some suits are better adapted than others to the many challenges that Spider-Man must face. Locate these costumes and use their special abilities to more easily overcome Spider-Man's adversaries.

VIEW CREDITS

See a list of all the people responsible for bringing Spider-Man to life. Select View Credits and press the **Enter** key to confirm. The **Esc** key can be pressed at any time to exit.

CHEATS

Input any game cheats that have been discovered here. Type in the cheat code with the keyboard and press the **Enter** key to confirm the code. To correct any mistakes press **backspace** and to exit from this menu press **Esc**.

Once collected, the icon will unlock a real Spider-Man comic cover. These comics detail historic events in Spider-History, including a brief synopsis pointing out the highlights of that particular issue. Any listing that contains a question mark (?) is unavailable until unlocked from within the game.

Press the **Esc** key to exit the Comic Collection.

GAME COVERS

As the story unfolds, each chapter will be prefaced with its own comic book cover. Use the **Directional Arrows up/down/left/right** to highlight a cover once it's unlocked. View the highlighted cover by pressing the **Enter** key. To go back, press the **Esc** key. Any listing that contains a question mark (?) is unavailable until unlocked from within the game.

STORYBOARDS

Storyboards allows you to view the original design art that served as the backbone, or template, for all of the movies in the game. The storyboards will unlock once the game is completed.

Use the **Directional Buttons up/down** to highlight the storyboard to be viewed.

Press the **Enter** key to view that storyboard. In order to progress through the storyboards, use the **Directional Buttons left/right**.

Press the **Esc** key to exit Storyboards.

THE STORY THUS FAR...

"Last time I checked, I was Spider-Man.

So there I was, attending a lecture at the Science Expo given by the now-reformed Dr. Otto Octavius (better known as Doctor Octopus). Just as Octavius finished lecturing on his latest technological innovation, the entire auditorium was thrown into chaos.

Somebody dressed to look like Spider-Man took out the security guards and stole Octavius' new piece of technology. As if that wasn't bad enough, I bumped into Eddie Brock during all the commotion. Since Brock is the human half of the symbiotic pair known as Venom, I'm thinking his presence at the Science Expo can only mean more trouble.

Isn't that just my luck? Octavius' technology has been stolen, and the police and everyone else in New York City think it was me that took it. But there has to be more to this than meets the eye. Why would someone want to steal Octavius' technology and pin the theft on Spider-Man?

Well, I know one thing for sure: New York City is only big enough for one Spider-Man.
And that's me."

- Super-Human Agility (Similar to a Spider)
- "Spider-Sense" that warns him of pending danger and gives him ability to detect signals from his Spider-Tracers
- Ability to adhere to walls and most other surfaces with his extremities

GAMEPLAY TIPS

- If you press jump while in mid swing, then re-engage your web swing, you can alter your course. This is called “Breaking, or Cutting Webbing.”
- Use your Spider-Sense to fight multiple foes. The red arrows will point to where an enemy is located. Also, your Spider-Sense will point out the closest bad guys first.
- Sometimes Zip-Line webbing can be used to save yourself from falling. Make sure there is something above you to cling to first!
- Vary your attacks. Different enemies respond differently to attacks. Some have to be fought at a distance; others are not affected by impact webbing. Learn how to fight each enemy in a way that conserves both health and webbing.
- Use Web-Spikes to increase your punching power considerably.
- When facing multiple opponents, the Web-Dome is useful for both attack and defense.
- Don’t forget that you’re Spider-Man! Use ceilings and overhangs to approach the bad guys with stealth.
- Sometimes it’s better to run than fight. Even super heroes know when a fight can’t be won. Use discretion when confronted with some enemies.

- Use the environment to your advantage. Grab your enemies and send them flying. This is especially useful in the furnace room.
- Spidey may be a superhero, but he doesn’t like water. Avoid swimming at all costs!
- Use combinations of punch, kick, and webbing to get more effective attacks.
- Remember, many objects in your environment can be picked up and thrown by Spider-Man.
- Remember to explore your environment; you never know what you might find behind a door or under some furniture.

You agree not to solicit, initiate or encourage any proposal or offer from any person or entity to create any New Game Materials for commercial distribution. INJUNCTION: Because Activision would be irreparably damaged if the terms of this Agreement were not specifically enforced, you agree that Activision shall be entitled, without bond, other security or proof of damages, to appropriate equitable remedies with respect to breaches of this Agreement, in addition to such other remedies as Activision may otherwise have under applicable laws. MISCELLANEOUS: This Agreement represents the complete agreement concerning this license between the parties and supersedes all prior agreements and representations between them. It may be amended only by a writing executed by both parties. If any provision of this Agreement is held to be unenforceable for any reason, such provision shall be reformed only to the extent necessary to make it enforceable and the remaining provisions of this Agreement shall not be affected. This Agreement shall be construed under California law as such law is applied to agreements between California residents entered into and to be performed within California, except as governed by federal law and you consent to the exclusive jurisdiction of the state and federal courts in Los Angeles, California. If you have any questions concerning this license, you may contact Activision at 3100 Ocean Park Boulevard, Santa Monica, California 90405, (310) 255-2000, Attn.
